

## FRIENDS OF OFFICIALS MAKE BITTER CHARGES

### GIVE OPINIONS AS TO REASONS WHY SENATE HELD UP APPOINTMENTS

Assert Confirmation of Utilities Commission is Held up Because of Refusal to Allow Legislators Use of Railroad Passes—Hearing Will Take Place Next Week.

Springfield, Ill., April 15.—Bitter charges and counter-charges as to the reasons why the state senate today held up the confirmation of eight members of Governor Dunne's recess appointments were made tonight by friends of the state officials affected.

Friends and members of the state public utilities commission charged that the senate is holding up the appointment of the five members of that body because of the commission's action in prohibiting legislators from using railroad passes. Friends of state insurance Commissioner Rufus M. Potts claimed that his confirmation was being delayed because of his activities against what he terms the "insurance combine." Hearing of complaints against the state officials not confirmed will take place in Springfield next week.

Confirm Other Appointments. All of Governor Dunne's other recess appointments were confirmed by the senate. The following appointments made by the governor today were also confirmed:

Nelson Ward of Clinton, to be public administrator of DeWitt county; vice Lawrence E. Stone, resigned.

W. F. Alchale of Shelbyville, public administrator of Shelby county, vice L. C. Westvelt, term expired.

Harry I. Weber of Chicago, to be superintendent of the Chicago North Side free employment office, vice Charles H. Weber, resigned.

C. C. Humphreys of Williamson county to be miners' examining commissioner, vice Nicholas Cowell, resigned.

Representative W. J. Graham of Alton, led an unsuccessful attempt in the house today to hold up all appropriation bills on the ground that such appropriations would be illegal. The fight was directed against a bill making a deficiency appropriation of \$4,500 for the state auditor's office. The bill was passed by a vote of 124 to 14 after considerable debate.

Senate Adjourns 'Til Wednesday. The senate today adjourned until next Wednesday. The house will adjourn tomorrow until the same date. No session will be held next Tuesday because of downstate elections on that date.

A resolution directing the voting machine commission appointed by the last legislature to make a report within the next ten days was offered by Representative Butler of Sangamon. In reply to a communication from William Barrett Millard, D., secretary of the Chicago church federation council, protesting against the passage by the legislature of "a law to legalize prize fights," Lieutenant Governor Barratt O'Hara today strongly endorsed the boxing bill now before the legislature.

"I cannot agree with you in your contention that boxers and those who patronize boxing contests are of an especially low order," the lieutenant governor replied. "As far as the present bill is concerned I am determined that both opponents and proponents of boxing shall receive an absolutely fair deal in the state senate."

Mayor Daniel Dineen of Decatur, a former railroad man, and representatives of organized labor today addressed the house public utilities committee in support of the McGoon bill, limiting freight trains to fifty cars. Others who spoke were Representative McGoon, author of the bill; J. S. Edwards of the Brotherhood of Railway Trainmen and W. W. Carroll and H. C. Lawrence of the Order of Railway Conductors. All of the speakers urged the passage of the bill as a "safety first" measure, declaring long trains to be "unwieldy" and dangerous. No action was taken on the bill.

The executive board of the state federation of labor today issued a call for a meeting of delegates from all affiliated labor organizations to be held in Springfield on April 27th and 28th, to demand action from the legislature on labor bills. Governor Dunne and about forty members of the legislature today made plans for a good roads boosting trip through Southern Illinois next Thursday, which is "Good Roads Day" in Illinois. The executive party will leave East St. Louis in automobiles early Thursday morning and will go to Mt. Vernon where a large mass meeting will be held in the evening.

Bills providing for the purchase of the two blocks immediately south of the state capital building for a site for a state convalescent hospital were introduced today. The measures carry an appropriation of \$2,500,000 and create a commission to purchase the land.

What Governor Dunne contends is the only serious objection to the administration's plan for the building of a deep waterway connecting the Great Lakes with the Gulf of Mexico, was submitted today to the state engineers.

The principal objection to bill was made by citizens of Ottawa, who claim their sewer system would be put out of commission under the present plan which provides for a 32-foot dam across the Illinois river at Starved Rock Park. Such a dam would raise the river at Ottawa more than seven feet, thereby backing the sewers.

## TORRENTS OVERWHELM TWO DAMS AND EIGHT PERSONS DROWNED

Property Damage Reaches Half Million—Leaves More Than 30,000 Acres of an Irrigation Project to the Exigency of Dry Farming Until New Dams Are Built.

Holbrook, Ariz., April 15.—Torrents from the melting snow of the White Mountains overwhelmed two reservoir dams of the Little Colorado river near St. Johns last night and today drowned eight persons, damaged property to the extent of about half a million dollars and left more than 30,000 acres of an irrigation project to the exigency of dry farming until new dams are built. Weakened by burrowing gophers, the sixty foot earthen dam at Lyman, 12 miles south of St. Johns, was the first to give way at 11 o'clock last night. Here five Mexicans and three grandchildren of Mrs. Rachel Berry, a member of the state legislature, lost their lives. Rushing northward the huge wall of water rolled into the town of St. Johns, which is the county seat of Apache county, and submerged sections of it to a depth of three feet.

Hunt dam, a smaller dike of the same character, 20 miles north of St. Johns, collapsed next and the flood, sweeping through the channels and canyons of the petrified forest there, assailed the village of Woodruff, 12 miles south of Holbrook, and raced into this town tonight.

Ample warnings had been given, however, to everyone in the danger zone as soon as the Lyman dam went out. Telephonic messages were flashed throughout the region and there was no further loss of life. Farmers, stockmen and others hurried their families out of the path of the flood, taking their stock and such property as they could move with them. Santa Fe railroad officials took measures here and at Winslow to prevent damage by the flood. Bridges were weighted and strengthened and hastily work was done to divert the swirling currents at threatened points. The Mexicans who were drowned lived under the Lyman dam. The children who lost their lives were those of Mr. and Mrs. Elva Paller, living a short distance from the dike.

## WILL HOLD ONE FUNERAL FOR NINE WRECK VICTIMS MONDAY

Coroner States "Someone Ought to Go to Jail for This" in Discussing Accident in Which Car Was Run Down by Freight.

Detroit, Mich., April 15.—Nine funerals will be merged into one next Monday to take care of nine of the fifteen victims of last night's accident when a crowded street car was run down by a Detroit, Toledo & Ironton freight train on a railroad crossing in the western part of the city. All of the nine were parishioners of St. John Cantius Roman Catholic church where the funeral will be held. The state railroad commissioners, prosecuting attorney, coroner and police officials were busy all today investigating the collision preliminary to bringing charges against those responsible for the accident. The coroner's inquest will be held Monday morning and in the meantime J. C. Westover, the student motorman on the wrecked car and Richard Vallade, the regular motorman who was instructing Westover are held at police headquarters. Westover was operating the car when the collision occurred.

"Someone ought to go to jail for this," said Coroner James E. Burgess today while discussing the accident. "The crossing was one of the safest in the city and there was a clear view of both tracks, coming and going."

## FIRE DAMAGES PEORIA BOARD OF TRADE BUILDING HEAVILY

Loss is Estimated at \$50,000—Western Union Offices and Equipment are Total Loss—Two Firemen are Overcome.

Peoria, April 15.—Fire which broke out in the basement of a board of trade building at the corner of Washington and Liberty streets at 8:30 o'clock tonight did damage estimated at \$50,000. A half hour after the flames arrived it was believed that the flames were under control, but the fire made its way through the floor into the main office of the Western Union company and a general alarm brought the entire fire fighting apparatus of the city to the scene.

After a two hour battle the flames were brought under control. The Western Union offices and equipment were a total loss. The Postal Telegraph company, located in another part of the building, lost two cables, but its services was not seriously interrupted. The Western Union tonight established temporary headquarters at its uptown office and another station at the stock yards.

Two firemen were overcome by smoke.

## RENEWED TALK OF APPEAL

Davenport, Iowa, April 15.—With the official announcement of Secretary Farrell that Rockford had qualified for membership in the Baseball League, there was renewed talk tonight of an appeal to the national board to put that city in Three Eve territory. Pending the final decision the Three Eve probably will put its eighth club in Springfield, it was said here tonight.

## TWO ZEPPELINS RAID ENGLAND'S EAST COAST

### DO CONSIDERABLE DAMAGE TO PROPERTY IN SEVERAL TOWNS

As Far as Can Be Ascertained Only One Person, a Woman, is Injured—Dutch Telegrams Give Authorities Ample Time to Prepare for Raid.

London, April 16.—(3:10 a. m.)—Two Zeppelin airships visited the east coast of England shortly after midnight dropping bombs on several towns, doing considerable damage to property. As far as has been ascertained, only one person, a woman, was injured. It is said she was only slightly hurt.

Come Up Blackwater River. The airships dropped four bombs on Maldon, in Essex county, 39 miles northeast of London, but no damage resulted. Bombs also were dropped in the Heybridge basin, two miles across the river. These set fire to some buildings. The airships came up the Blackwater river and over the marshes and circled. At Lowestoft, on the North Sea in Suffolk county, three bombs were dropped, considerable damage resulting to house property in the center of the town. A lumber yard also was set on fire. The window panes in many houses were shattered. Three horses belonging to the railway company were killed. Previously the aircraft had visited Southwold, 12 miles south of Lowestoft and having missed striking that town with its missiles went on to Halesworth, eight miles inland. It then returned again to Southwold and dropped six bombs.

Pass Over Harwich. According to the latest accounts, after leaving Lowestoft the aircraft passed over Harwich in the direction of Felixstowe. It is said now that a dozen bombs were dropped in Maldon but that only one building, workshop in the London road, was struck.

Anti-aircraft guns were heard during the night at Gravesend and Sheerness. The authorities had ample warning of the air raid as Dutch telegrams reported that Zeppelins were coming across the sea in the direction of England. Notices were sent to the police authorities of some of the east and the south coast towns of possible aerial visitors.

No Personal Injury Results. Maldon, Eng., April 16.—(2:00 p. m.)—No material damage and no personal injuries resulted from the airship raid over Maldon early this morning as far as has been reported. Seven bombs were dropped at Heybridge, across the Blackwater to the north of Maldon. An airship also was seen over Southminster, having traveled the ten miles from Maldon in a short space of time.

No Bombs on Harwich. Harwich, April 16.—(2:00 p. m.)—At 12:55 o'clock this morning a cigar shaped airship passed over Harwich at a considerable altitude coming from the North Sea. It also passed over Felixstowe and went in the direction of Ipswich. The airship showed no lights. No bombs were dropped in Harwich.

## ARGENTINE BATTLESHIP MORENO AGROUND IN DELAWARE RIVER

WILMINGTON, Del., April 15.—The Argentine Battleship Moreno, which sailed from the Philadelphia naval yard today for Hampton Roads, ran aground near Reedy Island in the Delaware river and tonight was fast on the upper end of Dan Baker shoal. Officers of the dreadnought do not believe the ship was damaged.

Tugs are standing by and an effort will be made to float her on flood tide early tomorrow. After coaling at Hampton roads the Moreno will proceed to the Argentine republic.

## TO SEND LIBERTY BELL TO EXPOSITION

Philadelphia, April 15.—Select and common councils today decided to allow the historical Liberty Bell to be sent to the Panama-Pacific Exposition. Resolutions providing for its trip across the continent were unanimously adopted by both bodies. Mayor Blankenburg announced tonight that he would sign the resolutions.

## PADEREWSKI IN NEW YORK

New York, April 15.—I. W. Paderewski, the pianist, arrived here today on the steamer Adriatic from Liverpool to aid in raising funds for the relief of devastated Poland. He will remain here about a month, he said, but will give no concerts, devoting all his time to the work of aiding his suffering countrymen.

## ZEPPELIN RETURNS SAFELY

Amsterdam, via London, April 16.—(4:15 a. m.)—It is officially announced in Berlin that the airship which attacked the Tyne Mouth district of England Wednesday has returned safely.

## War News Summarized

Again the allies have assumed the offensive on the western line of battle and, according to Paris, have made gains in Terrain, capturing officers and men and guns and repulsed German counter-attacks.

There has been trench fighting, combats at the point of the bayonet, artillery engagements and what is termed a successful raid over the German military buildings at Ostend by fifteen allied aircraft. One aeroplane is said to have dropped five bombs on the headquarters of the German imperial staff at Mezieres and Charleville in reprisal for the alleged throwing of bombs by a German aviator on a hospital at Mornelone.

While there has been somewhat of a let up in the fierceness of the Russian attempt to get their armies through the Carpathians and out on the plains of Hungary, hard fighting continues in some sectors.

In the naval warfare two steamers have been added to a long list of those that have gone to the bottom as a result of torpedoes or mines—the Dutch steamer Katwyk, loaded with grain for the Netherlands government and the British steamer Parmangan. Four Dutch trawlers also were said to have been seized by the Germans and taken into Cuxhaven.

They were reported to have been released later however.

In the eight months of fighting from August to April 11th, the total casualties among the British forces were 139,347 men.

## REPORTS DISREGARD OF SMALLPOX QUARANTINE

### DR. DRAKE GIVES OUT STATEMENT ON ADAMS COUNTY SITUATION

Dr. E. F. Baker Reports That in One School All the Pupils Except One Had Contracted the Disease from the Teacher—To Demand Prosecutions.

Springfield, Ill., April 15.—Dr. C. St. Clair Drake, secretary of the state board of health, tonight said he had received reports of reckless disregard of quarantine regulations in Adams county where there are several cases of small pox. Dr. Drake said, it was reported, that in one school, all the pupils except one had contracted the disease from the teacher. He said he would send Edward Hart, sanitary expert of the board, to Quincy tomorrow to demand prosecutions for disobedience of the rules regulating contagious diseases.

### Dr. Baker Makes Report.

The mild type of the disease alone has prevented a large mortality Dr. Drake said. He based his statements from Dr. E. F. Baker, inspector of the board, who has spent several days in the county.

"On March 28th, Dr. Baker found eleven unquarantined cases of small pox in three houses in Clayton, nine cases in one family Dr. Drake said. "No physician had been called and members of the family were going about as usual, the children attending school."

"These cases were quarantined and on the following day, returning to Clayton, Dr. Baker found that the father and three sisters of a small pox patient, who was found attending school in Clayton township had come to the village to purchase provisions to last them through the quarantine period."

### Many Not Quarantined.

"On March 29th, our inspector found nine cases of small pox in Clayton township, many of which had not been quarantined and which had not received medical attention. Twenty-five cases were found in Pea Ridge township, Brown county, immediately east of the Adams county line."

"On April 9th, in Keene township the inspector found a teacher in a country school in the third week of small pox. All of the fifteen pupils, except one who had been vaccinated were in the same condition. On the tenth the inspector found that a member of the township board of health had taught school during the entire time the school was suffering from small pox and had neither disinfected his home nor the school house."

"On April 11th, forty cases were found in Houston township in ten families. The same condition existed in other townships."

## WILL ASK CONTINUANCE OF CASE AGAINST MADDO AND WILLIAMS

WASHINGTON, April 15.—Further evidence that the government expects to have a hard fight on its hands in the injunction proceedings brought by the Riggs National Bank against Secretary McAdoo and Comptroller of the Currency Williams was given today when government counsel announced that a postponement would be sought when the case comes up tomorrow in the District of Columbia supreme court.

Louis D. Brandeis, special assistant attorney general in charge of the case was not prepared to tell tonight just how much time he would ask from the court.

## HUERTA STATES MEXICO CANNOT BE CONQUERED

### DECLARES HE HAD NOTHING TO DO WITH DEATH OF MADERO

Former Dictator's Statement Reviews History of the Madero Revolution and His Own Accession to the Provisional Presidency—Says Mexican Will Save Country.

New York, April 15.—Vehemently asserting that he had nothing to do with the death of Francisco Madero, General Victoriano Huerta, former provisional president of Mexico, issued a lengthy signed statement tonight setting forth what he termed his side of the Mexican question. General Huerta declared that he knew who was responsible for Madero's death but that he was keeping it as a "professional secret."

General Huerta's statement reviewed the history of the Madero revolution, his own accession to the provisional presidency and concluded with the assertion that "my country cannot be conquered."

Sixteen millions of men, women and children would have to be killed before Mexico would submit to an invader, he asserted.

### Says Americans Were Misled.

The heads of the Washington administration, he declared, had not been fair to Mexico, had been misled by false statements and if they had been in Mexico for thirty days, "they would have changed their theoretical, erroneous ideas." Had it not been for the embargo on the exportation of arms from this country, General Huerta indicated that his army would have prevailed over those opposed to it.

The former provisional president reiterated the assertion which he made when he left Mexico last year that he had resigned from his position only because he hoped to bring peace to his country.

He pointed out that in the eight months elapsed since that date the situation in Mexico had become too bad for him to analyze deeply.

"Anarchy is too soft a word to call it," he said. "Mexico would eventually be saved, but by a Mexican. Who that would be he did not know."

### Refuses to Divulge Plans.

General Huerta declined in response to question to give any intelligence as to his future movements. He denied the report that he would go to San Antonio, Texas, or any other point near the Mexican border. Discussing the death of Madero he said:

"That is a professional secret. Lawyers have secrets, doctors have secrets—I am a soldier—why should not a soldier have secrets? It is not true friendship for anyone that I am withholding the information. It is a professional duty. The time will soon come when my name will be vindicated and, as General Lee said of General Jackson, the world will say of me, 'I stood like a stone wall submitting to the ignominy and the insults that have been heaped upon me.'"

"It has been said that you betrayed the confidence of President Madero, is it so?" he was asked.

General Huerta straightened up proudly, his eyes flashed and bringing his clenched fists against his breast, he replied:

### Was Not Responsible.

"No, I swear it; I was in no way responsible for his death. It has been one of the big tortures of my life. I am sorry I have to keep the secret. Although I am of a different race than you gentlemen, I am a man."

General Huerta's signed statement was in part as follows:

"After fifteen months of Madero's ill-administration of public affairs, a portion of the patriotic Mexican army, who were humiliated and maltreated by Mr. Madero, revolted and took possession of the government's capital. For ten days the streets of the city ran with blood."

"The situation became intolerable. The heads of your administration were not fair to Mexico but I believe they were misled by false statements. Besides there is quite a difference between theory and fact. If your administration had only been in Mexico for thirty days they would have changed their theoretical, erroneous ideas. But I would rather not discuss this subject too deeply. It is a discourtesy, you know for a foreigner to criticize heads of a nation whose hospitality he enjoys."

"My Indian honest blood boils when I think of the unfortunate conditions existing in my poor country and when I think that a good clean plain like the American is led by false and artificial tricks to defend a cause which is nothing more than one of vandalism and anarchy."

"But, never mind, I have hopes. My Mexico is young. My Mexico has plenty of life in it. My country cannot be conquered. We have sixteen millions of men, women and children and it would need sixteen millions of invaders, one invader for each man, for each woman, for each child and when my 16,000,000 brothers and sisters are killed off, then a devastated country would be the prize of the conqueror, to the shame of civilization and to the shame of the conqueror."

### Will Be Saved by a Mexican.

"Never mind, Mexico will be saved by a Mexican. By a strong Mexican."

## JURIST CRITICISES MODERN THEORY OF CURING CRIMINALS

States Average Criminal is Far from Being the Mental Defective Pictured by the Present Day Psychopathic Criminologist.

Chicago, April 15.—The average criminal is far from being the mental defective pictured by the present day psychopathic criminologist, Marcus Kavanagh, judge of the superior court, asserted today in a speech in which he criticized self appointed experts and the modern theory of curing criminals by kindness.

"We are being taught that crimes are the result of mental defects and that consequently God alone is to blame and the theory of punishment is wrong," he said. "The effect of this is to destroy the sense of personal responsibility. It would be difficult to find a body of men and women possessed of minds more active and intelligent than those housed in the county jail. The fact is these people are lazy and selfish, but not defective mentally."

"It is true the criminal is uneducated because education requires work and hard work. The most convincing evidence of good character is the calloused used palm. The police need not watch the man or woman much who works."

"Too much sympathy has been wasted on the woman of the streets. She is not mentally defective. She does not need sympathy, but wants to be let alone. She knows perfectly that she could go in numberless kitchens and be certain of clean food and a place to live and good wages. But she does not want to work."

"It is true that she also is uneducated. She was too lazy and selfish to acquire an education. It is high time to stop coddling criminals. Stern and inflexible handling is the way to stop the penitents and stop the actions of the young criminals."

## SIXTEEN THOUSAND UNION CARPENTERS GO ON STRIKE

Follows Demand for an Increase in Wages From 65 to 70 Cents an Hour—Will Halt All Building Construction in Chicago.

Chicago, April 15.—Sixteen thousand union carpenters anticipated a lockout which would become effective tomorrow and went on strike at the close of work today. The strike, ordered by union officials, followed a demand for an increase in wages from 65 to 70 cents an hour.

The lockout order was the result of a general order of the Building Construction Employers' association directed at every union in the building trades which might permit its working agreement with the employers to expire. After the strike was declared the employers made public a special notice which said none of the men who struck would be permitted to return to work. The strike of the carpenters will halt all building construction in Chicago, it was said tonight.

Officials of the sheet metal contractors association notified the employers association tonight that they would enforce a lockout against the members of the metal workers' union beginning Saturday morning, unless the union assented to the joint agreement in the building trades.

## LEHIGH ROAD TO LET CONTRACTS FOR EXTENSIVE IMPROVEMENTS

Will Involve an Expenditure of Almost \$1,000,000 According to Announcement of Head of Railway.

Washington, April 15.—Announcement that the Lehigh railway soon will award contracts involving an expenditure of almost \$1,000,000 as a result of improved business conditions at this time, was made in a letter to President Wilson from E. B. Thomas, president of the road, which was made public tonight at the white house with the consent of Mr. Thomas. Details were not given but the letter added that the road contemplated additional expenditures "as conditions improve in manner I believe they will."

Mr. Thomas wrote the president to deny that he meant any criticism of the administration in saying in a recent statement after a call at the white house that the prosperity of the railroads depended largely on the attitude of Washington officials.

## SCHNEPP FILES PETITION IN CIRCUIT COURT FOR RECOUNT

SPRINGFIELD, April 15.—Asserting if the votes had been counted fairly he would have been re-elected mayor of Springfield by 600 votes, former Mayor John Schnepf today filed a petition in the circuit court for a recount. Charles T. Baumann was declared elected by 48 votes. The petition charges irregularities in 27 of the 41 precincts, that others than clerks and judges of election were permitted to count ballots and that votes cast for him were counted for Baumann.

Not by a bandit. Not by men that kill for the sake of money or of dastardly passion, but by a Mexican who will act as a surgeon, who will cure the sores, who will amputate the dead parts of the national body. And then Mexico in a short time will revive and will be the paradise on earth as it deserves to be. Where is the man? Who is the man? When will the man appear? I do not know."

## SINKING OF STEAMER AROUSES DUTCH PEOPLE

### BELIEVE GERMANS SUNK VESSEL OFF NORTH HINDER LIGHTSHIP

England Acknowledges Sinking the Dresden in Chilean Waters and Offers Apology—Both Sides Claim Successes in the Carpathians as Well as in the West.

London, April 15.—(10:30 p. m.)—Although it is not yet certain that a German submarine boat was responsible for the sinking of the bottom of the Dutch steamer Katwyk last night, the sinking of the vessel has aroused the indignation of the Dutch people as evidenced by the editorials of the newspapers in Holland.

### Was Lying at Anchor.

The Katwyk, which was loaded with grain from Baltimore consigned to the Dutch government, is reported to have been lying at anchor at the time of the explosion and to have been flying the Dutch flag. The Dutch newspapers insist therefore that no mistake could have been made and that if a German submarine actually torpedoed the steamer "we must expect that the German government will, without loss of time be made responsible for this severe violation of the rights of neutral powers."

The fact that the Dutch government was directly involved in the Katwyk's cargo and that the news of the sinking of the steamer came immediately on top of the announcement that four Dutch trawlers had been seized by the Germans and taken to Zeebrugge apparently heightened the feelings of the Hollanders.

The Katwyk incident and many rumors of diplomatic movements in Italy and in the near east seemingly had made the people of England almost forget last night's Zeppelin raid over Northumberland county and the fighting on the continent.

### England Offers Apology.

Next in interest to the sinking of the Katwyk was the publication of a "white paper" showing that Great Britain acknowledged that British cruisers had sunk the German cruiser Dresden in Chilean territorial waters and had offered an apology for the action of her squadron. As far as fighting is concerned the battles in the Carpathians and in the Wevere are the only ones of any importance.

The Russians, although now faced by much larger forces than they were at the beginning of the battle three months ago, are said to be continuing their efforts to force the Austro-German armies completely out of the Carpathians and open the way to Hungary. Having successfully taken the western passes they are bending their energies on an attempt to capture the Uzok pass and the heights to the northeast of that break in the mountains.

### Both Claim Success.

Petrograd claims that the Russians are making steady progress despite the efforts of the Austro-Germans to outflank them, but the Austrians insist that the recent fighting has been in their favor.

In the Argonne in Alsace and in the region of the Somme, the French declare they also made some progress but this is in direct contradiction of the Berlin official report which says that all the French attacks were repulsed.

## REPRESENTATIVES OF SHIPPERS VOICE OBJECTIONS TO INCREASE

CHICAGO, April 15.—Representatives of shippers and manufacturers from Missouri and Mississippi river points today voiced their objections to the proposed increase in freight rates on coal, before W. M. Daniels, interstate commerce commissioner. In general the contention was advanced, in opposition to the petition, that present coal rates from mines to consumers are now sufficiently high and to advance further would be manifestly unfair.

The specific contention that present coal rates from Illinois coal mines to Sioux City, Iowa now yield a higher revenue per car than do other commodities was advanced by C. E. Childre, commissioner of the traffic bureau of the Sioux City Commercial Club.

## WEATHER FORECAST AND TEMPERATURES.

WASHINGTON, April 15.—For Illinois: Fair Friday except cloudy extreme north; Saturday probably fair.

### Temperatures.

The current, maximum and minimum temperatures recorded Thursday were:

	Current.	High.	Low.
Jacksonville	60	71	38
Boston	44	46	40
Buffalo	53	56	3

## New Jewelry Lines Suited to the Spring Season

We are showing some very attractive new lines of jewelry now. The designs are especially adapted to the season and the prices especially moderate.

We invite you to call and inspect the offerings and you will be welcome, whether you buy or not.

In the second ward Lew. H. Pratt is seeking election to membership in the Board of Education. He has no one in mind for punishment or reward and is actuated by a desire to serve the schools in which he has long been interested. Mr. Pratt is a clean, high class, fair minded man, competent for the position and deserving of the support of the voters.

Billy Sunday of evangelistic fame believes the greatest honor yet has just come to him. It is nothing more or less than a cablegram from London, sent by Sir Henry Randall, asking him to work in an anti-saloon crusade in England, which has the backing of King George. Sunday visited Jacksonville a few years ago, but now works in large vineyards.

The indications are that a favorable vote will be recorded next Tuesday for one per cent tax for an anti-tuberculosis sanitarium fund. Such a tax would not make a burden on any property owner and would raise a fund of \$25,000 for the prosecution of anti-tuberculosis work. Insurance societies and fraternal organizations have long recognized the value of this work and more recently the public has become educated to its importance. Jacksonville people have made a good start in their fight against this common scourge.

Federated Club Founder Dead.  
Mrs. Savillah Wyatt Latham, founder of the Federation of Women's clubs is dead at her home in Lincoln. It was back in 1880 that Mrs. Latham who had been active in club work conceived the idea of organized club work taking in a number of cities. Women from a dozen cities were invited to her home for a conference on the subject and from this meeting sprang a movement which has gained constantly in influence. The federated women's clubs of the country today stretch into almost every state of the union and great and good is their influence.

Earning the Living.  
The University of Missouri professor who declared that wifehood and motherhood are not sufficient for women accorded with the modern viewpoint. This university man in addressing a gathering of women on "Economics and Feminism" found fault with a great many customs long recognized as good and satisfactory and declared that women must have some other economic function than the home supplies. He said that two hours is enough for any woman to spend in the home, and that after that she should go downtown, or, at any rate, out of the home and help earn the living for the family. In the meantime the poor man of the family is worked to death, while his wife is only a "filligree decoration," and if she would do as she ought to he would not have to work more than four or five hours in the day.

The Rate Case.  
Jacksonville citizens who attended the hearing before the utility commission Thursday at Springfield came away with the feeling that it was the desire of the commission to act in utility matters in the interest of the people, yet fairly to the corporations. Commissioner Shaw, before whom the hearing of the Jacksonville rate case was being held, seems to be fair and impartial in every ruling. He proceeded in a quite decisive way, making it apparent that he will brook no pettifoggish methods from attorneys or witnesses—that his purpose is to get at the facts and to have them stated just as plainly as possible.

Yesterday at intervals, Mr. Shaw, interjected questions calculated to clarify the points counsel were striving for, and also to keep witnesses from confusion and from straying away from the main points involved in their testimony. Only the fact of his own expert knowledge along engineering lines makes it possible for him to thus give point and direction to the testimony. There is evidence that the Jacksonville rate case, which has seemingly been sliding along very slowly during a somewhat extended period, is approaching a conclusion, and that the finding will be based on all the facts and in the interest of justice.

It would have cost the city of Jacksonville several thousand dollars to have had the inventory work done by engineers which the commission has carried on in behalf of the city without a cent of expense to the city. As one Jacksonville man expressed it, "I am convinced now that we will get absolutely no just deserts, and all we have to do is to back up the commission in the work that they are doing in our behalf."

Beveridge on War Results.  
Former Senator Beveridge who has been in Europe writing "war" articles for Collier's has been the object of some very pointed sarcasm because of the somewhat egotistical and personal vein in which he has written. Nevertheless the former

senator's address before the Sphinx club, in New York, Wednesday, a very short time after his return from abroad has in it much that is worthy of reflection. He said:

"We had better make up our minds that at least as far as France and Germany are concerned, this is a war of the peoples, not of rulers or aristocrats. What I saw and heard in Germany smashed to smithereens my original theory that the masses were against the war and that every one was compelled to go to the front and many went unwillingly. Not in the days of Frederick the Great or of Napoleon did men pour out their blood more willingly than Germans and Frenchmen are shedding theirs right now.

"No matter what side wins, one result is certain: That, excepting in Russia, there will be an advance in democracy, greater than has been made in a century. Socialism will make great strides. When this thing is over the workingmen will have a lot to say about the economic distribution. The masses will demand a hand in the affairs of their respective governments.

"The feeling is unanimous in England, that at least the railroads will never pass back into private control. The old economic disposition is passing away and a new one is being born."

### DEALINGS IN SECURITIES AGAIN ROUND MILLION MARK

Thursday Operations Embrace Larger Number of Issues Than Previous Recent Record Sessions.

New York, April 15.—For the fourth time within a week dealings rounded the million mark in trading today.

Today's operations were more noteworthy than those of any recent day however, not only because they were accompanied by a higher average level of prices, but because they embraced a larger number of issues. Exactly 212 individual stocks were traded in, this number exceeding any date for some years. A few of these stocks rose from 4 to 7 points.

Inquiry for securities came largely from commission houses which implied an increase of speculative and investment demand from out of town interests. In point of fact, impartial observers are of the opinion that local interests including provisional traders and representatives of foreign banks and bankers have been among the heavy sellers of the past few days. That the weight of these combined offerings has not been of much avail in stemming the rising tide of quoted values is regarded as proof, it is argued, of the markets inherent strength.

Today two seats were under negotiation according to reports. Less than a month ago memberships were offered at \$36,000 and in the final months of last year when business was suspended because of the war the price went very much under that figure.

Banquet tonight by Excelsior Lodge, No. 3554, G. U. O. F. at Odd Fellow's hall, north side square. Good speaking. Supper 25c. Everybody welcome.

### ARREST MAN WITH DYNAMITE ENTERING PACKING PLANT

Prisoner and Companions Deny Any Intention of Setting an Explosion—Part of Plant Was Wrecked Last Sunday.

Kansas City, Mo., April 15.—A man, who officers said, was carrying four sticks of dynamite, wrapped in a package, and several feet of fuse with a dynamite cap attached, was arrested tonight by detectives in Kansas City, Kan., as he was entering the grounds of the Cudahy Packing company, a portion of whose plant was wrecked by mysterious explosions last Sunday night. The man gave the name of Joan Mulvihill. Two companions arrested with him gave the names of Max Barren and R. E. Conley. All deny they had any intention of setting an explosion or that they knew anything of the explosion last Sunday night.

According to the police, Mulvihill, who was an employee of the packing company has been under surveillance since last Monday. Police Chief Thomas Fleming said after the arrest that his men had seen Mulvihill purchase the dynamite in Kansas City, Kan., today. Mulvihill declared he did not know what was shown in the package until he was shown at police headquarters following his arrest. According to his statement the detective he merely had taken it to carry for a friend whom he was to meet at a restaurant. Chief Fleming and detectives from his department, according to their statements, acting on information given them, waited outside the grounds of the plant tonight. When three men appeared, the detectives say they waited until one, who they say is Mulvihill, by the light of a match, pared the end of the fuse and inserted the dynamite cap and started toward the plant. The three were then arrested.

A. L. Berger, an attorney for the Cudahy company, questioned Mulvihill. Berger in a statement later said the company officials believed a plot to destroy the Kansas City and South Omaha, Neb., plants and to kill some of the officials.

"We expect other arrests to follow," he said.

### MORGAN COUNTY TEACHERS TO MEET

TWO DAYS SESSIONS APRIL 22-23 IN THIS CITY.

Exercises Will be Held in the David Prince School Building and Prominent Speakers Will Address Assembly—Local Musicians on Program.

The Morgan County Teachers' Association will hold the last meeting of the season in the David Prince school auditorium, Thursday and Friday of next week. Section 183 of the school law provides that "time spent at such meetings shall be counted the same as time spent in teaching."

The program includes among the out-of-town speakers, Prof. O. L. Manchester of the State Normal University, Rabbi Leon Harrison of St. Louis and Pres. H. W. Shryock of the Southern Illinois State Normal.

A number of local musicians will assist in the exercises and Thursday evening the faculty of the Woman's college will give a program in honor of the guests. The public schools will be closed during the two days in order that the teachers may attend.

The program committee is composed of J. H. Dial, chairman, Miss Laura Hammond, Miss Gertrude Stansforth, Prin. Charles A. R. Stone, Miss Nannie Campbell, Miss Bessie Hart, Miss Susie Root.

The program follows:

Thursday Morning 9:30.  
Invocation—Dr. R. O. Post.  
Music—High school orchestra.  
Business session.  
Address, "The Open Air School"—Miss Katherine M. Olmsted.  
Address, "The Passion Play as Seen at Oberammergau"—Dr. R. O. Post of the Congregational church.

Music—High school orchestra.  
Afternoon 1:30.  
Music, violin solo—Mr. W. E. Krich of Conservatory of Music.  
Address—Rev. M. L. Pontius.  
Music, piano solo—Edmund Munger, Conservatory of Music.  
Address, "The Public School Teacher and the Social Problem"—Prof. O. L. Manchester of the State Normal University, Normal, Ill.

Thursday Evening 8:00 o'clock.  
The program of the evening will be presented by the faculty of the Illinois Woman's college of music in Music Hall. The program follows:

Organ, (a) Priere a Notre Dame (b) Minnette Gothique.  
Mr. Henry V. Stearns.  
Reading, Cutting from "If I Were King".....J. McCarty.  
Mabel Louise Gieckler.  
Voice, "My Heart at Thy Sweet Voice", from Samson et Dalila St. Saens.  
Florence Pierron Hartmann.  
Violin, Adagio.....Lalo  
Rosaland N. Day.

Piano—  
Chanson Neapolitaine, St. Saens  
An Autumns.....Moszkowski  
Valse Triste.....Sibelius  
Jean DeMuth.  
Reading, The European Travelers  
.....Mary Stewart Cutting  
Miss Gieckler.  
Voice, (a) Beautiful Land of Nod (b) The Snake Charmer.....Lehman  
Mrs. Hartmann.

Violin, Serenade.....Arensky  
Andantino.....Kreisler  
Gavotte (old style).....Gossec  
Mrs. Day.  
Organ, Grand March from Aida.....Verdi  
Mr. Stearns.

Friday Morning 8:30.  
Music—Illinois State School for the Blind.

Invocation—Rev. Walter E. Spoons.  
Music—Miss Ailsie Goodrick (Folk Dances).  
Address—Pres. H. W. Shryock of Southern Illinois State Normal University.

Music—Miss Ailsie Goodrick (Folk Dances).  
Reading—Miss Jeanette Taylor.

Friday Afternoon 1:30.  
Music—Mrs. Genevieve Clarke Wilson of Conservatory of Music.  
Address—Rabbi Leon Harrison of Temple Israel, St. Louis. Subject: "Religion in the Public School."  
Entertainment—Dr. C. Carol Smith, Roodhouse.  
Paying of dues.  
Adjournment.

### MOTHER SUPERIOR.

Says Vinol Creates Strength.  
Rosary Hill Home, Hawthorne, N. Y.—"I have used Vinol for many run-down, weak or emaciated patients with benefit. One young woman was so weak and ill she could hardly creep to my door for aid. I supplied Vinol to her liberally and in a month I hardly recognized her. She was strong, her color charming and her cheeks rounded out."—Mother M. Alphonsa Lathrop, O. S. D.  
We guarantee Vinol to sharpen the appetite, aid digestion, enrich the blood and create strength. Lee P. Allcott, druggist, Jacksonville, Ill., and leading drug stores everywhere.—Advertisement.

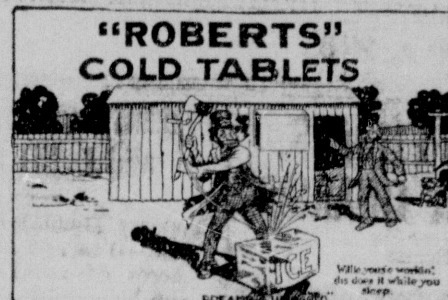

### TO STOP HEADACHE.

Headache usually comes from a sluggish liver and bowels. If you feel bilious, dizzy or tongue is coated and stomach sour, just get a 19 cent box of Casarets to start your liver and bowels and your headaches will end.—Advertisement.

Material and supplies	4,686.00
Non-operating property	1,835.00
Totals	\$252,072.00

Stripped of all technical and legal verbiage, the evidence given thus far in the city's side of the rate case before the Illinois Utility Commission shows that the value of the company's property inventory has been cut in two. The totals, as indicated by the Byllesby accountants, who prepared the inventory, show property valuation of \$761,606.68, whereas the values figured by the engineers in the employ of the utility commission on the same property are \$400,081. The company, however, had the consolation Thursday of hearing from B. H. Beck, one of the commission's engineers, the statement that the local electric plant is giving just as good service as would be true were all the equipment entirely new.

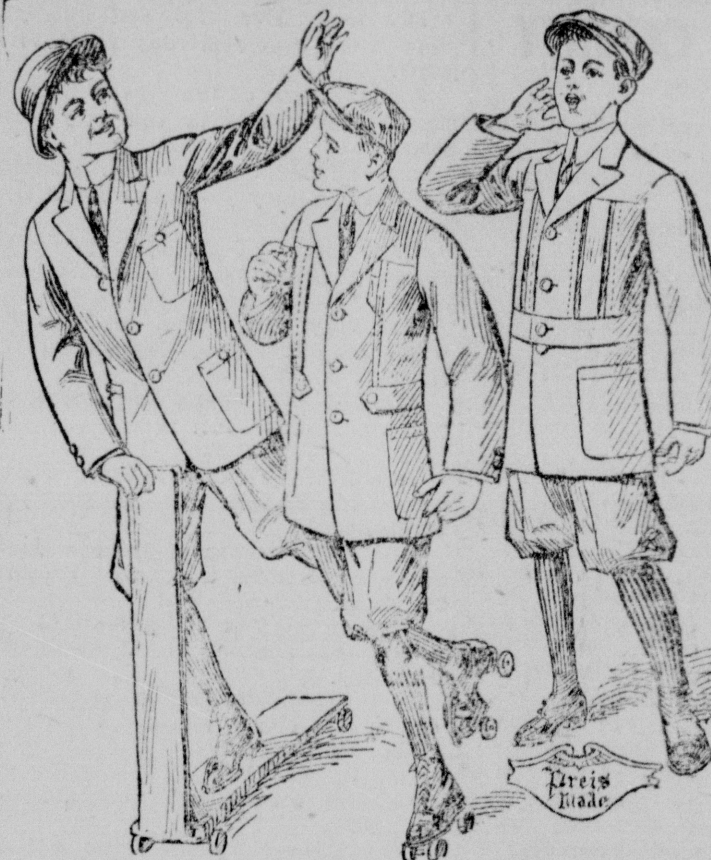

The basis for the sharp difference in estimates made on the value of local utilities seems to be in the figuring of overhead and going values, as well as depreciation. There are also some differences in basic estimates, which, increasing as they proceed, make a marked difference in the final result. The vital point indicated by the two widely diverging estimates is that, based on the commission's figures, the utility company is making money, and based on the figures as arranged in the Byllesby inventory, the company is not making money but rather is losing steadily in some departments. Right there is the meat of the whole matter, for if the commission engineers' figures are sustained it will follow that the profits and surplus now accruing from the company's Jacksonville investment make it possible to grant lower rates for gas and electricity, and still earn a sufficient amount for profit.

Many Attend Hearing.  
The hearing began at 9:30 Thursday morning before Commissioner Shaw, with the city interests represented by Attorney Stevens of the

firm of Herndon & Stevens, Springfield; City Attorney Paul P. Thompson and John J. Reeve, who has been retained in the case since it was originally brought before the commission. The principal attorney for the company is H. I. Green of Champaign who is assisted by M. H. Lee, also of Champaign, and J. A. Knowlton, of Peoria. Seated next the company's attorneys was W. B. Miser, local superintendent for the utility company, together with other officials of the Illinois Traction system. With the attorneys for Jacksonville appeared Dr. Edward Rowe and E. F. Baker who filed the original complaint. There were in attendance yesterday a large number of city officials and of candidates for city office, including Mayor Davis, Commissioners Engel, Knollenberg and Newman; H. J. Rodgers, Jerry Cox, George P. Davis, Francis Brewer, Joshua Vasconcellos and W. F. Widmayer, State's Attorney Tilton, George E. Doying, L. E. O'Donnell and J. W. Walton.

The traction officials referred to before included W. E. Steinwaddell, a gas expert who has been connected with gas enterprises in Cleveland, Quincy, Belleville and a number of other Illinois cities; E. F. Hight, electrical engineer, Peoria; H. F. Wagoner, general engineer, Peoria; F. W. Bedal, gas engineer, Peoria; and B. E. Bramble, general auditor, Champaign. The first witness in the morning was C. H. Armstrong, and he was followed by D. C. Prince and J. M. Lane, all of whom stated that they were assistant engineers in the employ of the utility commission.

At 12 o'clock noon adjournment was taken until two o'clock, when B. H. Beck, electrical engineer for the commission, took the stand and his testimony and examination occupied all of the afternoon session. A night session was also held, when H. T. Little was on the stand and

## T. M. TOMLINSON

See Our Boys' Clothing Window.

when adjournment was taken it was until the call of the commission. Neither Commissioner Shaw nor the attorneys interested in the case were able to give it further attention at present.

Commission Witnesses Qualify.  
Each witness on the stand was first interrogated by Commissioner Shaw briefly and required to state his age, experience and the general plan of work followed in fixing values upon the company's property in Jacksonville. Then each witness was examined by Mr. Stevens on behalf of the city and Mr. Green for the utility company. Mr. Stevens' line of questioning was evidently intended to establish that the witnesses who gathered the commission's facts are men fully qualified by education and practical training to do this work; that they had done the work in the desire to get at the exact facts, and in their methods they had followed the generally accepted plan of experts in arriving at their results.

Some of Mr. Green's questions suggested the thought that some of the investigators were rather young in experience and that they had proceeded along theoretical rather than practical lines. He sought to show, too, that in utility values, a great deal of consideration must be given to local conditions, and that no fast and hard set of rules will apply in all cities, large or small.

Mr. Stevens' questions also brought out in each case that the commission's engineers had in making their findings used the Byllesby inventory, all the facts and records placed before them by the utility company, and had also secured data from the companies manufacturing the equipment now in use. C. H. Armstrong, the first witness, told of his technical and practical training, and then stated that the estimates he had made on street railway property were compiled from information furnished by the company and from observations made independent of the company. He said that in estimating the value of materials that he took the facts from the company's cards on file in their office and that in the matter of the buildings he made the estimates from inspection and from figures

(Continued on page seven.)

## COMMISSION EXPERT SAYS LOCAL GAS COST IS ABOUT SIXTY CENTS

Figures Do Not Include Depreciation  
Cost—Company Will Endeavor to  
Prove Estimate Too Low.

At the night hearing before the utility commission, J. T. Little was the only witness examined and he occupied the entire time until 9:30 o'clock. Mr. Little is the gas expert for the utility commission and the purpose of his testimony was to give the commission engineer's view of the cost of manufacturing gas in the local plant. Based on his figures it costs the local company to make gas without figuring in the depreciation on the plant, 60 1-5 cents a thousand and feet. If this statement is not disproved it is said to form a satisfactory basis for the expectation of a lower gas rate in Jacksonville.

Taking Mr. Little's figures and adding a fair amount for depreciation and for profit and there will still be quite a substantial difference between the total and the present price. Mr. Little explained at some length, in answer to the questions of counsel, what his experience has been as a gas engineer and the line of inquiry he pursued in arriving at his final figures. At the conclusion of Mr. Little's examination adjournment was taken subject to the call of the commission, with the understanding that a ten day's notice will be given the parties interested. At that time it is likely that the engineers examined yesterday will be recalled by the company and that the company will put on witnesses in an effort to disprove some of the figures which the commission engineers have presented. Attorneys for the city maintain that the Byllesby inventory which was filed by the company and made a part of the record, has been disproved in a number of instances and has thus become an aid to the contentions set forth by the city in seeking lower gas and electric rates.

## BOYS' SUITS

This is a good time to get the boy a new spring suit and we have the correct things in the \$4, \$5, \$5.50, \$6, \$7 and \$8 all-wool suits. Some suits have two pair of pants.

## LOCAL UTILITY VALUES ARE CUT DOWN SHARPLY BY COMMISSION

(CONTINUED FROM PAGE FIVE.)

deduced from rough field sketches.

### Some Inventory Changes.

In other instances he had changed to a considerable degree the Bylesby estimate on the number of brick in the wall of one building at the light plant, and said that this was occasioned by the fact that he dug down to the footing of the foundation and learned that the Bylesby estimate had credited the building with eight feet of foundation which did not exist. He went into other details, showing in one instance that the roof perimeters were of wood and not of steel as indicated by the company's inventory, and stated that the purifiers, etc. in the gas department were checked from the contracts and drawings of the company. He said that he had complete access to the company's books, files and contracts in the Jacksonville office and also the records in Champaign.

Mr. Armstrong in talking about the street railway property said that some of the ties were below standard in size and that they showed evidences by decay. Mr. Green asked him if it was not true that ties very soon after being placed in service begin to show evidences of some decay, although they were still good for years of service. Mr. Armstrong stated that he had been in practical engineering work since 1910.

D. C. Prince, the next witness, stated that he had, after finishing his technical education, served as assistant engineer for the General Electric company, and he explained in some detail the methods he had used in inventorying the company's railroad property. He had traced the history of the cars and other equipment by observing the manufacturer's name plates and writing to them for the original cost and the date of building, and he had taken cognizance of rebuilt cars also.

### Track Paving Figures.

Asked by Mr. Stevens if in estimating the value of paving between and along the company's tracks he had taken into account that the company had not laid some of the pavement, but instead had opened it and placed the tracks therein, the witness replied that his estimate simply took into consideration the amount of yards of paving between the rails and to a point eighteen inches on the outside of each. As to the amount of non-operative property, he said that he had taken the company's statement of this matter. He said that his only difference of any moment on the street railway from the Bylesby report was in the matter of grading. Mr. Green did not think that a fair estimate of the original cost of grading could be made from a simple survey of conditions as they exist now.

J. M. Lane, the next witness, completed a two years' engineering course at Armour Institute and subsequently was in the employ of the Commonwealth-Edison company in Chicago. He told of a method he had followed in checking the company's gas services as back as the records go, that is, to 1895. He said that these records were in a book written partially in pencil and partially in ink, and he could not tell from this record just the proportion of straight and split service, but he had assumed the proportion as four to three. He said that he had checked the main lengths and described the methods used in securing information as being practically the same as those detailed by other witnesses.

### Fair Methods Used.

At the afternoon session B. H. Peck, electrical engineer for the commission, took the stand and was given what might be termed a severe examination. Mr. Peck, however, was not confused at any time and seemed to have a complete and thorough understanding of the work which had been done under his direction. He told of the general method of computation used and explained that in the matter of depreciation what is termed as the straight line method was used. He said that in estimates of equipment when obtainable was used. He explained also that in figuring over the company's inventory a number of instances were found where a proper credit had not been given for property owned and that in all such cases the commission engineers had given the company the benefit of these facts.

Mr. Stevens laid some emphasis on this point in order to make clear that the commission engineers had proceeded only with the purpose in view of getting at the real facts. He asked the witness at this point if he knew that a New York court of appeals decision had recently declared that if a going value is claimed by a utility company that it is up to the company to establish the showing.

When the witness was testifying as to his experience, which covered a period of ten years, he was questioned closely by Mr. Green as to whether or not this experience had been rather theoretical than practical. The attorney also sought to show that the witness probably had not had experience in utility matters as related to the relation of companies in rendering service to the public. Mr. Peck said that he had as an employee of Jackson & Jackson in Chicago, come into contact with such questions in advising with utility companies in at least six different cities.

### Mr. Shaw as Questioner.

At this point Commissioner Shaw asked a number of questions calculated to give emphasis to this

point, namely: that the witness, as a consulting engineer in utility matters, had taken up the very questions of efficiency and economy, etc., which continually come before utility companies for satisfactory solution. Mr. Green asked if it wasn't true that a different class of service is demanded in new cities by comparison with cities long established, but the witness did not think that this fact made any difference.

The art of the witness' testimony subjected to the most severe attack were those exhibits showing the per cent of depreciation on the company's property and another giving a compilation of figures on accrued surplus or interest. These tables showed that the engineers had figured the total cost of the electrical department of the company at \$168,998, and the annual depreciation at \$8,166. This makes the per cent of depreciation 4.84. The company's figures on the present value of the electrical department are \$220,359.42. The commission's figure on the cost of the railway department is \$253,072, with annual depreciation of \$11,186, thus making the per cent of depreciation 4.44. The company's valuation of its railway property was fixed in the Bylesby inventory at \$241,654.03.

### Returns Show Surplus.

According to Mr. Peck's comparative figures as to accrued surplus for the period from 1906 to 1913, it was shown that on the basis of a six per cent investment the surplus would be \$25,968; or on a seven per cent basis, that this surplus would be \$30,200. If the figures were made at eight per cent there would be a deficit of \$5,667. Figuring in the same way for the accrued surplus in the electrical department, but for the period from 1906 to 1914, a six per cent investment figure would mean a surplus of \$86,826; a seven per cent investment, a surplus of \$76,438, and an eight per cent investment, of \$65,887.

By years these figures were as follows:

1906	.....	\$ 7,490
1907	.....	2,830
1908	.....	5,007
1909	.....	7,805
1910	.....	12,193
1911	.....	19,118
1912	.....	14,136
1913	.....	18,267

This compilation of figures was based upon cost, additions, average investment, net earnings according to the Bylesby inventory, railway power sold, adjusted net earnings, working capital, cost of new cars, depreciation, and interest. The company's attorneys made strenuous efforts to show that these figures were based in some instances upon assumption and in others upon incorrect facts, without due consideration being given to actual cost figures or cost of operation. The summary of comparative property values as shown by the Bylesby inventory and by the commission's reports are interesting, indeed, pointing out in some detail wherein differences of more than \$300,000 were found.

## LITERBERRY.

Mr. L. A. Cooper is on the sick list.

Mr. Elmer Henderson entertained a few friends Wednesday afternoon.

H. E. Underbrink, principal of the school at Bath visited with Mr. and Mrs. J. E. Underbrink over Sunday.

Miss Mae Martin entertained the Clio club of the Christian church last week.

Miss Leana Dyer of Jacksonville has been visiting Miss Mae Martin. Rev. Mr. Crabtree of Manchester preached at the Baptist church last Sunday.

Mr. A. C. Rexroat of Jacksonville is visiting her daughter, Mrs. E. L. Clark and Mrs. Grant McGines and her son, Earl Rexroat here this week.

Mr. Charles McDonald who has been ill with the measles has recovered and was out for the first time at the shower given in honor of Miss Bernice Cooper at A. W. Petefish's last Thursday afternoon.

Mrs. Warren Daniels who has been a patient at Dr. Day's hospital in Jacksonville has returned home.

There will be a meeting Saturday night to decide about the coming horse show.

Mr. Grant Gaines spent last Sunday with his son Harold in Jacksonville.

Mr. and Mrs. Willard Young are the parents of a new baby girl. The first daughter and third child.

Mr. and Mrs. Al Chapman are rejoicing over their new daughter. This is the only daughter among seven boys and all are willing to give the right away to the new comer.

Mr. and Mrs. Durrell Crum entertained a number of friends last Saturday evening. The evening was spent in a pleasant manner. Mrs. Crum gave several selections on her new baby grand piano.

There will be services at the Christian church Sunday by the regular minister, Rev. Mr. Cantrell.

## HONORS FOR MRS.

### HELEN BROWN READ.

Wednesday evening at Springfield there was a grand celebration of the 50th anniversary of the assassination of Abraham Lincoln. Gov. Dunne presided and the affair was in the Congregational church which the martyr president attended and his pew was suitably draped with two flags of historic value. Bishop Fallows made the principal address which was a masterly effort. Mrs. Helen Brown Read sang a song written for the occasion and won a perfect ovation from the delighted audience. A. J. Pratt of Griggsville was present and said the honors bestowed on the young lady were very great.

Mr. and Mrs. Charles Lazenby of the vicinity of Lynville were visitors in the city Thursday.

## STATES MAJORITY OF TEACHERS OF SOCIOLOGY ARE UNFIT

Teacher of Economics at University of Chicago Testifies at Industrial Relations Hearing.

Chicago April 15.—The majority of teachers of sociology in schools and colleges are unfit for the reason that their knowledge comes through books rather than practical experience, according to testimony given before the United States commission on industrial relations today by Prof. W. D. Kennedy, teacher of economics at the University of Chicago and last week elected alderman from the 27th ward on the Socialist ticket.

Stating that unskilled labor at the yards at the beginning was English and German, but now largely Slavonic he intimated that large numbers of these unlettered laborers had been lured to this country for the purpose of providing an over supply of labor. In any event the supply was always greater than the demand, he said and the workers receive an average of \$10 to \$12 a week when steadily employed, which most of them, he said, are not. He used Armour & Co. as an illustration, he said, because J. Ogden Armour is to testify tomorrow and he wished to be fair but conditions at the Armour plant, he said were typical.

The low wages carry in their train unsanitary housing conditions, child labor and a high mortality rate, he averred. Of the deaths in the stock yards district, he said, thirty per cent were due to tuberculosis. The expenses of the average unskilled workers of the family, he said, were shown by his investigation to run \$300 a year beyond absolute requirements. Thus children and wives were sent out to make up the deficit or boarders taken in to defoul the air of already crowded cottages.

Miss Nell McGuire of West College avenue has returned from Winchester where she visited her mother, Mrs. Alice McGuire, and other relatives.

## THE MILITANTS

I wonder why the suffragettes, who lately made Great Britain tremble, and at whose name pale London sweats, don't go where armored hosts assemble. In times of peace they dealt in bombs, and spoiled silk hats and blew up churches, but now, when sound the fifes and drums, they sit in safety on their perches. Oh, how would Wilhelm's soldiers feel, if they should face long lines of sisters, all burning with their old-time zeal, and yelling till their tongues had dried? Methinks they'd up and run like squirrels, before those votes-for-women spieles, for who could face that gang of girls who buffeted the London peels? King George should see them on the Turks, to blow them up and chase and gall them, for they, of sinful ways and works, deserve the worst that may befall them. But there'd be protest, I'm afraid, of methods harsh, inhuman: "You're killing us with dum-dum maid, you're using an explosive woman." But then the girls don't volunteer, so what they'd do is merely guessing; they're playing idle games this year, and still rolls on the war distressing.

## AMOLOX THE NEW DISCOVERY

Many Cures Reported Daily in Towns Where It Is Known.

The wonderful cures that are being made by this remarkable new remedy are almost beyond belief. A young lady from Ottumwa, Ia., for many years suffered from a bad case of eczema. Her face was a sight to behold; all covered with red blotches, pustules and pimples. So unsightly was her appearance she gave up all social life. Failing to find relief with doctors and remedies, she became despondent and discouraged. After a few weeks' treatment with liquid Amolox the scaly redness disappeared, pustules healed and she was entirely cured. A few months following her mother wrote that Amolox had done wonders for her daughter, and she was married last week. Seems like a fairy tale, doesn't it? Yet this is the truth. This is only one of the many cases that are being reported in towns where Amolox has been introduced and its merits have become known. Amolox is invaluable for eczema, psoriasis, acne, tetter, barber's itch, red nose or any skin affliction. Recommended and guaranteed by Coover & Shreve. Your money back if it fails to do what we claim for it. Trial size 50c.—Advertisement.

## DON'T TAKE CALOMEL.

Instead of dangerous, salivating Calomel to fatten your liver when bilious, headachy or constipated get a 10-cent box of Cascarets. They start the liver and bowels and straighten you up better than nasty Calomel without griping or making you sick.—Advertisement.

## SHADOW OF A PROPHECY.

Servia Lives Under It, and It Spells  
Wee For Her Rulers.

In the last century, with the exception of Milan I, who was king for only a month and never even knew that he had succeeded, no king of Servia has reigned without being deposed, abdicated or coming to a violent end. Three rulers have been assassinated, and in the case of King Alexander, in 1903, his fate was shared by his wife.

Servian kings live under the shadow of the remarkable prophecy of 1868, when a peasant in a Servian village ran through the streets shouting, "They are killing the prince!" It was true, for Prince Michael Obrenovitch was assassinated. The man was taken to Belgrade, where he foretold other events which have since come true.

He said: "I see a prince who will be king, but he will govern badly and contract an unhappy marriage (Milan). Later I see a son who as a youth will ascend to the throne and who will be assassinated with his wife (King Alexander and Queen Draga). A king of another dynasty will succeed him, but he also will die a violent death."—Washington Post.

### Quick Change Show Windows.

Disappearing show windows, built to drop into the basement whenever the window is to be trimmed anew, have now appeared in New York. The purpose is to make a quick change possible at any time and to permit the window trimmers to work at their convenience in the daytime and take all the time necessary to obtain artistic effects. The floor of the show window is double, the upper floor being supported by casters resting on the lower floor. Thus when the window is dropped into the basement the show affair can be wheeled off and a new one wheeled on immediately. An elevator then raises the floor to the street level, the whole operation taking but a few minutes.—Saturday Evening Post.

### Ruskin's Old House Gone.

Ruskin's house at the top of Herne hill, London, is no more. It has recently been torn down, for the neighborhood is in a state of transition. When Ruskin gave up the house to his cousin, Miss Agnew (Mrs. Arthur Severn), he reserved the use of the study for himself, and also the use of the bedroom of his boyhood. His little study will be remembered as the room in which he completed "The Stones of Venice" and wrote his work on "Modern Painters." Although the house of John Ruskin has disappeared, however, his association with Denmark hill and Herne hill will be remembered by Ruskin park and Ruskin walk.

### World's Largest Electric Light.

Recently the largest electric lamp in the world was lighted in the New York navy yard. On a clear night the beams of this giant searchlight will be visible more than 100 miles away. There is no other lamp like it in existence. It is called the Beck searchlight and is the invention of Heinrich Beck, a German scientist, who has been conducting the tests of his lamp for the United States government. For coast defense a sixty inch reflector is now in use. Such a reflector attached to the Beck searchlight gives 1,000,000,000 candle power as against 180,000,000 candle power now obtainable.

**YESTERDAY'S RESULTS.**  
American League.  
St. Louis, 4; Chicago, 2.  
Chicago, April 15.—St. Louis defeated Chicago in a listless game. Caeney's wildness in the third inning caused his retirement. In this inning three bases on balls, three wild pitches, a stolen base and a single each off Cheney and Standridge gave St. Louis the game. Doak pitched in mid-season form in the pinches.

**YESTERDAY'S RESULTS.**  
American League.  
St. Louis, 4; Chicago, 2.  
Chicago, April 15.—St. Louis defeated Chicago in a listless game. Caeney's wildness in the third inning caused his retirement. In this inning three bases on balls, three wild pitches, a stolen base and a single each off Cheney and Standridge gave St. Louis the game. Doak pitched in mid-season form in the pinches.

## UTILIZATION OF FARM WASTE PROBLEM

WASTE OF MATERIAL, LABOR, BUILDINGS, WEEDS IN LIST

Table from Henry's Feeds and Feeding" Commands Attention of Farmers — Chickens Practically All Profit—Average Agriculturist Needs to Study Conditions Closer.

(By Carl Vrooman, Assistant Secretary of Agriculture)

In these latter days, when about all the cream has been skimmed from out soils, the farmer who has the best eye for little leaks is the one who is likely to have the best bank balance. Nowadays farming is a game of narrow margins, and many a wise farmer's entire profits are made on things that the slipshod farmer wastes.

All sorts of wastes go to swell the grand total of waste that must be jehalcked up against American farming—waste of material, waste of labor, waste of buildings—even waste of weeds.

Take that one item of weeds. Weeds, like the poor, are with us always, to some extent at least, and the farmer who makes the most of them has the advantage of the farmer who merely expends energy fighting them. The thing to do is to take the weeds into camp. A score or more sheep will make a good living on the weeds about the farm. With little or no other feed they will convert your weeds into mutton. Thus your weeds become almost clear velvet, since the sheep do the harvesting and require little attention.

### Henry's "Feeds and Feeding."

Weed seeds, which often can be bought from elevators at a very low price as compared with other feeds, can in these cases be fed with advantage in connection with hay. It has been shown that these seeds, commonly looked upon as sheer waste, will take the place of cracked corn in a ration for sheep or lambs. The following table taken from Henry's "Feeds and Feeding" is worth any farmer's attention in this connection.

Cull wheat and weed seeds compared with cracked corn for fattening lambs: (Minnesota station)

Average Ration	Feed
	Av. for 100 Daily lbs. gain Gain Grain Hay
Lot I.	
Cracked corn 1.3 lbs.	
Timothy hay 1.0 lbs.	0.25 523 402
Lot II.	
Small wheat 1.8 lbs.	
Timothy hay .9 lbs.	0.24 745 367
Lot III.	
Pigeon grass seed	
2.4 lbs.	
Timothy hay 0.5 lbs.	1.27 874 189
Lot IV.	
WHD buckwheat	
2.2 lbs.	
Timothy hay 0.7 lbs.	0.28 816 249

Thus it will be seen that this cheap "waste material makes a very substantial part of a ration for sheep. Where corn is dear and where elevators handle weed seeds in quantities at low prices, the farmer can often make a handsome profit by buying weed seeds and feeding them.

### Waste of Straw.

Straw is another item of "waste" that may be easily turned to profit. There are sections in the wheat country of Southern Illinois where straw is often burned to get it out of the way. Yet straw is a valuable feed if handled right. Cattle fed on silage and cotton-seed meal will eat and do well on straw for roughness. Idle horses will do well on a minter ration of straw, corn and oil meal. In connection with richer weeds straw may thus become a valuable part of a ration. When animals fail to take to it readily they may be encouraged to eat it by sprinkling the straw with weak brine. And at worst you can plow straw under for manure.

**Waste of Labor.**  
The waste of labor is another consideration of prime importance in this connection. There is a great deal of lost motion in the activities of the average farm. Take the matter of feeding, where a number of steers are being fattened. It has been shown that cattle make just as economical gains when fed once a day as when fed twice a day, yet how many farmers are there in this country who save the extra steps and elbow grease involved in the second feeding? Only a comparatively few feeders in the western states who have made feeding a science. The average farmer feeds his steers two, or even three times a day, thus wasting the work required to handle the feed the second or third time.

### Chickens Pure Profit.

It is worthy of note that different wastes must be utilized by different animals, and for this reason no farmer should keep any kind of livestock to the exclusion of others. Chickens are practically all profit as long as only enough are kept to pick up the utilize waste, but when you figure that if fifty chickens make 70 per cent profit a thousand will make more in proportion, you are up against another proposition. The same principle applies to all live stock. It's the old story over again. It's not what you make but what you save that makes the difference between success and failure.

These items of waste that might be turned to profit on the average farm are but minor things as compared with the big operations of farming, but on many a farm they would span the difference between loss and profit if they were given the attention that they deserve.

Dan Gorman of Waverly was transacting business in the city yesterday.

## Cookery Notes

### Appetizing Vegetable Salads.

In addition to potatoes, cucumbers and tomatoes, the usual salad vegetables, let us remember how good are cold peas and especially haricot beans if served this way; then French beans, runner beans and especially those delicate white varieties of haricot beans with the yellow pod and white bean; young carrots boiled and left till cold, cold asparagus, sprigs of cauliflower and crisp celery—all these may be served singly or in company with each other.

A very appetizing salad, excellent as a digestive, is of small capsicums, taken rather unripe. They should be split lengthwise and laid in cold water for some hours to reduce the pungency, then drained and torn into pieces. Shred some crisp lettuce leaves, chop a small onion and slice one or two tomatoes. Lay the lettuce within the bowl first, then the tomatoes, next the capsicums, and sprinkle the onion over. Finally pour over one of the above sauces or ordinary mayonnaise.

A vegetable salad where a mayonnaise sauce is used for the dressing should have this poured over on the minute before it is brought to table; otherwise it may separate and the vegetables get sodden. Any kind of garnishing that is suitable may be used—rings of hard boiled egg, nasturtium flowers or leaves and especially chopped nasturtium seeds, sprigs of fennel, parsley, etc.

### Salad Dressings Minus Oil.

The success of vegetable salads depends entirely upon the sauce or dressing. The ordinary salad dressing of oil and vinegar, pepper and salt is not sufficient for a vegetable salad.

The cook who finds mayonnaise a difficulty will be helped by following an old recipe for salad dressing the foundation of which is two boiled potatoes, passed through a kitchen sieve, and also the addition of the pounded yolks of two hard boiled eggs.

If these ingredients are mixed gradually and slowly with two, three or four spoonfuls of oil, one or two of vinegar and made mustard, salt and pepper at discretion the result cannot fail to be a smooth, rich, creamy sauce that will offend no one, as badly made mayonnaise must always do.

Another sauce for a salad dressing which will appeal to those who cannot take oil is the following: A yolk of egg taken raw and beaten with a teaspoonful of mustard, a saltspoonful of salt, one-half of a saltspoonful of pepper and a whole teaspoonful of white sugar. Mix in gradually sufficient thick cream to make enough dressing, and, lastly, work in a tablespoonful of vinegar drop by drop.

### For Tough Steaks.

If your steak seems tough lay it on a chopping board and beat it well with a rolling pin. This will break up the fibers and do away with the toughness.

Another way of softening it is to soak it in vinegar for a few minutes. The vinegar flavors it deliciously as well as making it tender.

It is a good plan to keep steak for a few days before cooking it, but you must remember that it is no use trying to do so after it has been cut into pieces, or the juice will trickle out and escape. If it is not whole you had better cook it at once and risk the toughness.

Chuck steak is good and reasonable in price. Undercut and fillet are more expensive and delicate.

### Peppers For Winter.

Sweet peppers may be kept for winter's use in several ways. One is to salt them away. Wash and wipe whole sweet peppers and tie tight in a cheese-cloth bag; place in a stone jar and fill it up with cold water, salted, allowing four tablespoonfuls of salt to each quart of water. When needed freshen by soaking in fresh soft warm water. Keep them in a cold place. Another scheme is to dry them. Wash and dry the peppers thoroughly. String them on heavy thread or tie and knot each stem with twine (not close enough to touch) and hang the strings in a dry place until the moisture has evaporated. Later, if preferred, they can be tied in bags and hung up.

### Fresh Tomatoes For Winter.

Gather smooth, ripe tomatoes in the fall. Select those without broken skins, wipe them off clean and put them in stone jars; melt lard, let it cool and pour it over them, covering them well; set jar in cellar. When taking them out for use save the lard, melt and pour back over the remaining ones. In this way you have fresh tomatoes all winter.

### English Jam.

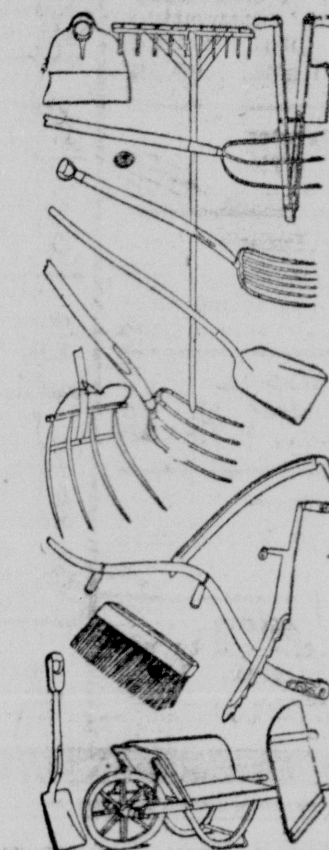

To a pound of fruit allow a pound of sugar and let all stand awhile to draw the juice out of the fruit. Put on the fire to cook without adding water. Cook until it will jelly when cold. It does not need to be sealed; it will keep without. Just tie a cloth or paper over the top of the jar when you set it away.

### Cooking Vegetables.

When cooking vegetables remember that all vegetables which grow above ground should be put into boiling water, and all which grow underground in cold water, with the exception of new potatoes.

# Dig the Garden!

# Sow the Lawn!

## Do It Now! Hours Count

If garden making begins with sowing Brady Bros' seeds and the other conditions are right, you are sure of success. The garden must be plowed or spaded and aerated now, turned up to the warm sun, which puts life giving vigor into it.

**Planting Time is Here Now! Get Busy!**

## Start a Garden Farm

Almost every patch of ground is good for something, whether it be a small back yard in town or a large lot further out. You can utilize the soil for profit and pleasure far beyond your expectation if you plant the seed.

## Garden Tools and Plows

We have a big assortment of Hoes, Rakes, Spading Forks, Spades, Garden Plows, Garden Trowels, Weeders, Cultivators, Sprinklers: in fact, everything necessary for garden work.

## Home Made Eggs

Fresh, right out of your own henry every day make eggs a week old seem stale. Go into the chicken business for the good there is in it—fresh eggs and spring chickens.

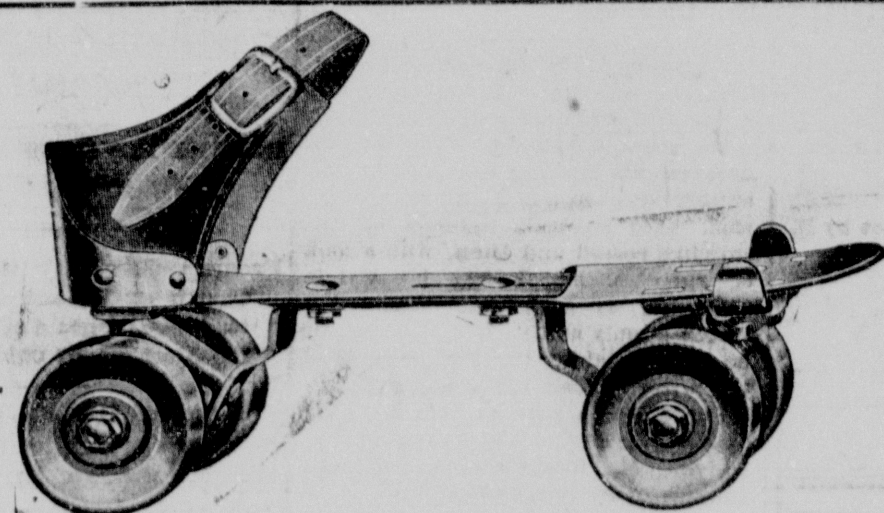

Call and let us help you make your selection of Poultry Netting or Fencing, Chicken Coops, Waterers, etc. Don't fail to see our new poultry and rabbit fence. Poultry Netting from 1 inch to 2 inches mesh and 1 to 6 feet high.

## Roller Skates

### For Boys and Girls

Just the thing to keep them out doors, make them strong and hearty. With granitoid walks everywhere in Jacksonville, roller skating is far more attractive than in most places. Every boy and girl should have them. The exercise is fine, the sensation exhilarating.

Prices Range From 60c a Pair Up

### SPORTSMEN WOULD REPEAL BIRD LAW

Sportsmen of Illinois are now quietly circulating petitions and doing considerable lobbying in an effort to secure the repeal of a state law that prohibits the shooting of live birds from traps. This law went into effect several years ago, having been brought to a passing by humane societies who claimed such sport was cruel. Sportsmen would never admit that such was the case, but with the passage of the law they were forced to fall back on targets which while a fairly good substitute, lack the real "pep" of the live bird game.

It having been proven that the pigeon is a first class conveyor of hoof and mouth disease germs, sportsmen now argue that their use at the traps would be a boon to the community. Thousands have been slaughtered during the past year in an effort to prevent them from

spreading the disease throughout the state, but thousands still exist. Sportsmen aver that a bird generally dies a tragic death anyhow and further assert that there is no cruelty attached to their death before the traps. Birds not killed by the shot are at once put to death on hitting the ground. One in a great while a bird may possibly escape but slightly injured, but it is pointed out that such incidents also occur in hunting.

Live bird shooting is still a popular sport in the east, where hundreds of charitable institutions profit by the weekly shoots, the dead pigeons being dressed immediately following the killing and donated by the sportsmen to worthy people.

Henry Meyer of Arenzville was in the city Thursday in consultation with an architect regarding plans for a residence he contemplates having erected in the near future.

### ADMINISTRATOR'S NOTICE.

Estate of Henry W. Franz, Deceased.

The undersigned having been appointed Administrator of the estate of Henry W. Franz, late of the County of Morgan and State of Illinois, hereby gives notice that he will appear before the County Court of Morgan County, at the Court House in Jacksonville, at the June, 1915, term, on the first Monday in June next, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

All persons indebted to said estate are requested to make immediate payment to the undersigned. Dated this 15th day of April, A. D. 1915.

E. F. Johnston, Administrator.

Mrs. Charles West of rural route 2 was calling in the city Thursday.

## HARD FOR HIM TO DECIDE.

Both Propositions Seemed to Be in the Same Class.

When William A. Garrett was general manager of the Pere Marquette railroad he had an aversion to smoking. He therefore issued an order that any employee smoking while on duty would be discharged. This story of what then happened was told by William H. Canniff, head of the Nickel Plate railroad:

Garrett was walking through one of the company's freight yards one day not long after the issuing of his anti smoke order and saw a freight brakeman contentedly puffing at a cigar.

"I see you're smoking," remarked Garrett.

"Yes, you're exactly right," replied the brakeman in deferential tones.

"I SEE YOU'RE SMOKING."

"I'm smoking." And he kept right on smoking.

"You probably don't know who I am," observed Garrett.

"Oh, yes, I do," said the brakeman. "I've seen you around here before. You're the general manager."

"Then evidently you haven't heard about our new order against smoking," went on Garrett.

"Sure, I heard about it—a week ago," replied the brakeman courteously and without ceasing to puff at his cigar.

Garrett then began to be angry. "See here, my good man," said he, "which looks the best to you, that cigar or your job?"

For some moments the brakeman stared off into space, puffing slowly at his smoke and apparently thinking the proposition over. Then he declared:

"I hardly know what to say, Mr. Garrett—they're both so rotten!"—New York Sun.

## Criticism.

Censure and criticism never hurt anybody. If they are false they cannot hurt you unless you are wanting in many character, and if they are true they show a man his weak points and forewarn him against failure and trouble.—Gladstone.

## Henry Ward Beecher's Wit.

On one occasion Mr. Beecher was in the midst of an impassioned speech some one attempted to interrupt him by suddenly crowing like a cock. The orator, however, was equal to the occasion. He stopped, listened till the crowing ceased and then, with a look of surprise, pulled out his watch. "Morning already!" he said. "My watch is only at 10. But there can be no mistake about it. The instincts of the lower animals are infallible."

There was a roar of laughter. The "lower animals" in the gallery collapsed, and Mr. Beecher was able to resume as if nothing had occurred.

## A Barbarian.

Sir Donald Mann, the Canadian railroad builder, had a sensational career, beginning as an axman in the Canadian lumber woods.

Early in life Mann visited Europe on a business mission and at a dinner one night became involved in a quarrel with a Russian nobleman. Next day he received a call from one of the nobleman's friends, bearing an invitation to a duel. "If he doesn't like what I said to him, let him come up and tell me so," said Mann. "He can come a-running, too, and carry any size gun he likes."

The friend explained that would never do. Nothing but the regular thing on the field of honor would do.

"Oh, all right," said Mann. "I've been fighting duels all my life. But I'll have to insist on using my national weapon—a sixteen pound double blitted ax."

The friend went away holding up his hands at the barbarian. That night the nobleman met Mann. He was about the size of a grasshopper. Mann is something over six feet high and four wide, with no fat. "I fight you, m'son," said the nobleman, "with the weapon of any civilized nation, but I be hang if I commit suicide!"

## Ripe For a Change.

One secret in executive work is putting the right man in the right place. Lord Claud Hamilton knew it. Lord Claud was traveling over his line when a brakeman, or guard, as they say in the old country, shouted at Acton station: "Hacton! Hacton!" Lord Claud smiled. A little further on, arriving at Hanwell, another guard shouted: "Anwell! Anwell!"

Quick as a flash Lord Claud said to his companion: "You see how difficult it is Thornton to get the right man in the right place. We must have that Acton porter brought here and we'll send that Hanwell fellow to Acton!"

# The Emporium

Jacksonville, Illinois

# SPECIALS FOR SATURDAY

Our store was crowded to capacity last Saturday. We knew the women of Jacksonville and surrounding territory would respond. They bought generously, for we gave them wonderful values. Tomorrow, Saturday, we again offer unheard of bargains—the kind that have made The Emporium the women's trading center for miles around. We expect big crowds. Therefore have engaged extra salespeople, so that all may be promptly waited upon. Be sure to take advantage of the extraordinary values on sale for Saturday. We guarantee a big saving on any purchase you make.

\$4.00 Genuine Panamas. Sale price .....\$1.49

## SUNDAY SCHOOL TEACHERS' INSTITUTE

## FOURTH DISTRICT MEETING OF TWO DAY'S SESSION.

Program Given at Second Baptist Church and Sessions Largely Attended—Program of Today Including Election of Officers.

Nonsense for the people to discuss any segregation problems when the good white citizenry of Jacksonville have asked me if the Second Baptist church folk need help for an overflow delegation just call upon us, said Rev. H. H. DeWitt at the Fourth annual session of the Springfield Sunday school district institute, an auxiliary of the Wood River Baptist Sunday school convention of Illinois.

Following this a letter from Mayor George W. Davis was read, stating that he could not be present and regretted it very much as he was forced to attend the public utility commission meeting in Springfield. Then at 10:30 a. m., the gavel rapped by Mrs. Laura Lafayette, President of the District Institute and superintendent of the Sunday school of the Second Baptist church. She stated that under these favorable circumstances she was pleased to see such a large delegation present and so many smiling faces. The committees were named as follows:

On Enrollment: Mrs. E. J. Goins and Miss Eulalia Osby.  
Finance: Rev. W. H. Carter, Miss H. B. McTier and Mrs. Wm. Morton.  
Credentials: Mrs. Josie Crumel, Johnson, Miss A. Foreman.

In the Workers' Conference Springfield sent four churches: New Hope with Rev. W. H. Carter, Miss E. Y. Osby and Miss H. B. McTier, told of the work of the young men. Zion: Mrs. Josie Crumel told of the growing interest of the Adult classes.

Pleasant Grove: Mmes. Johnson and Page told of the children's movements in Sunday school life. Union: Mesdames Pettit, Hall and E. Goins told of the strongest financial rallies by the children.

Antioch Decatur sent Mrs. Kemp, who spoke of the strong girls' classes.

Lincoln Second sent Miss A. Foreman, who spoke of the efficiency of contest work in Sunday school life.

Jacksonville Second is prospering because Mrs. Nash told of the regular teachers' meetings.

After these interesting reports on motion Mrs. Margaret DeWitt was made the organist of the session

Rev. Dr. E. L. Scruggs, pastor of the Mt. Emory Baptist church, was introduced to the body for the first time and spoke of the need of evangelism in our Sunday school work.

Rev. Dr. E. H. Borden, superintendent of the Missions of the Colored Baptist, discussed "Piety as an essential for Christian Evangelism." Dr. Borden is in the employment of the Illinois Baptist State Convention white, and is president of the Wood River Baptist Sunday school, the largest colored religious Sunday School Convention in the State of Illinois.

Rev. J. W. Muse spoke encouragingly of the new recruits in Sunday school work and wished the delegates success.

## Afternoon Session.

In the afternoon promptly at 2:30 o'clock Mrs. Bertha Hall led the devotional exercises. Bible Lesson Mark 4:26-29 inclusive by Rev. E. H. Borden. Special songs by the delegates led by Miss M. DeWitt. Testimonials were heard from the newly arrived messengers. It was truly a spiritual feast.

At 2:45 p. m. the president, Mrs. Lafayette, called for the reading of the journal. "The Home Department" was ably discussed by Mrs. Page, who spoke of the teaching of the Sunday school lessons in the homes and told how the department brought members and finance into the Sabbath school; the Cradle Roll growth in Zion Springfield church; told of the enrollment of the babies and thus the parental enlistment by Mrs. Josie Crumel and also in Union Baptist, Springfield, by Mrs. Bertha Hall.

Dr. Chappelle discussed Home, Mother, Heaven for the Home Department by canvassing and teaching God's word.

Dr. Borden then threw a match into the blaze when he stated "that the negro home is about gone", and at once ministers and layworkers jumped to the floor and criticised the speaker sharply. Soon the house was in a breeze as Rev. J. A. Crockett of Decatur, a strong gospel preacher, championed the side and Revs. Carter, Chappelle and Mrs. Goins, and Miss Robinson and Mrs. Page objected to the statement.

Mrs. Dora Bryant of the Mt. Emory Baptist church of this city, read a well prepared paper on "The Mother's Relation to the Sunday School", stating that the mother's interest should be shown in her sympathy for Bible reading and sending in developing her child; in co-operating to train and accompanying her as guide; in cultivating and teaching.

Miss Robinson, representing "The Crisis", was introduced and spoke of the mighty effort that magazine is making in her racial uplift. Miss Robinson is truly cultured.

S. W. Nichols of the Journal, spoke to the institute of his father's work in freeing the slaves. He spoke of 50 years' Sunday school work among the colored people. He said: "The great thing for us to do is to stick together and do the best we can." He spoke of his travels and especially in the Holy Land. He wished the institute God speed.

Miss Armenta Foreman of Lincoln sang a beautiful solo, "A Perfect Day", and to the delight of the institute Miss E. Y. Osby of Springfield recited a telling story of "Ostler Joe". "The Primary Department" was the subject of a paper read by Mrs. Josie Crumel of Springfield. Mrs. Crumel said, "In the primary department young minds are shaped for eternity. Three things are essential for the welfare of the department: 1. A reliable, congenial and trustworthy superintendent directed by the Holy Spirit. 2. A cheerful and loving teacher. 3. A teacher who will adapt herself to the habits and conditions of the scholars under her control."

A discussion followed in which it was the sense of the convention that the teachers imbibe these principles.

## Evening Session.

Rev. J. J. Chappelle, D. D., pastor of the Pleasant Grove Baptist church preached on the theme: "Holding a Cyclopedia."

Dr. Borden, the president of the Wood River Baptist Sunday school convention and superintendent of missions of this state delivered one of the most inspiring addresses on "The Dynamics of Social Uplift."

Miss J. C. Turner, superintendent of the Home Sanitorium delivered a spicy welcome address.

The response was by Rev. W. H. Carter, D. D.

The Juvenile choir under the leadership of Mrs. Jennie Herman rendered beautiful music. The devotional exercises were conducted by Miss A. Herman.

The following is today's program: Morning.

9:00—Devotional, Pittsfield and Decatur.

9:30—Report of schools.

10:00—President's address.

10:30—Music, Jerseyville.

11:45—Election of officers of Sunday school, Petersburg.

11:15—Music, Juvenile choir.

11:30—Introduction of visitors.

11:45—Collection and adjournment.

## Afternoon.

2:00—Devotionals, Springfield, Zion and Lincoln.

2:30—Pastor's Duty to Sunday school, Clinton.

2:40—Moral Influence of Teacher, Springfield Union.

3:15—Report of District Superintendent, Springfield, New Hope.

3:45—Music, Carlinville.

4:00—Election of officers.

4:30—Collection and adjournment.

## Evening.

7:30—Devotionals.

8:00—Closing sermon, Decatur Antioch.

Report of committees.

Collection and adjournment.

## EUROPEAN WAR NOTES

Rome, April 15.—Via Paris—(5:15 p. m.)—A number of French bishops and priests came to Rome today to consult with the Holy See concerning the prayers for peace written by Pope Benedict for use in Roman Catholic churches the world over, next month. These clergymen said that the Roman Catholics of France including the clergy while subscribing to the pope's wish, decided to embody in the prayers a petition for the victory of their country in the war. In support of this contention they pointed out that a larger number of the Roman Catholic clergy in France than on any previous occasion had taken up arms for their country.

London, April 15.—(6:40 p. m.)—Walter H. Page, the American ambassador called upon foreign secretary Grey at the foreign office today and discussed the reprisals the Germans are reported to be making because of the special treatment being accorded by Great Britain to the officers and men captured on board German submarines.

No official advice have been received in London concerning the actual steps Germany is taking to punish the thirty nine British officers who are reported to have been committed to special detention because of the steps taken by England against the German prisoners.

Vienna, Via London, April 15.—(8:10 p. m.)—The following official communication was issued today: "In West Galicia near Cieszkowice on the Biala, a Russian attack made early on the morning of the 14th, failed."

"On the heights on both sides of Wysockie, on the Stry strong Russian forces attacked our positions but were repulsed after severe fighting. In a counter-attack we captured an important height taking three officers and 661 men prisoners."

"In the remainder of the Carpathians, except in some sections there were only artillery engagements."

"In the southeast Galicia and Bukovina, no actions are reported."

FLAG LOWERED FOR LINCOLN.

The flag on the postoffice was floated at half mast Thursday in commemoration of the fiftieth anniversary of the death of Abraham Lincoln. This was done pursuant to a general order from Washington to all keepers and custodians of public buildings.

## WHAT PERSON In Need of Money Can Let This Go By?

People on small salaries, women who have the living to make, men and women and even boys and girls, who on account of health are unable to do daily work. Need only to spend one hour a day in their own home after supper to make a handsome and steady income. You never can get a better opportunity.

DON'T FOOL YOURSELF, be the first one to grab this. A delay is dangerous. Get 100 to 150 letters daily, with 10c in each one of them, by mailing coin catalogues offering a premium on Buffalo Nickels and Lincoln Pennies, everybody buys. We start you with 2 dozen catalogues, keep you supplied at 22c per dozen and we write all of your Ads and tell you how and where to run them, everything furnished to start with in this money making business for \$1.50, no more.

For farther particulars, send 25c, address,

## WORLD'S MARKET NEWS

### ACUTE SCARCITY OF RESERVES HAS BULLISH EFFECT ON WHEAT

Reports That Rural Holders Are Selling a Little More Freely Cause Some of Gain in Price to Disappear.

Chicago, April 15.—Acute scarcity of wheat reserves predicted for the near future had a bullish effect today on the wheat market here but rural holders were said to be selling a little more freely and some of the gain in price disappeared. There was an unsettled close at 5c to 1 1/4c above last night. Corn finished a shade to 1/2c higher, oats off 1/4c to 1/2c up and provisions down 1/2 to 1c.

Buying of wheat started with a rush, influenced to some extent by cable advices, especially word that estimates of the exportable surplus of India had been reduced to 76,000,000 bushels as against previous estimates of 120,000,000 bushels. Later the bull side was favored by notice that export clearances from the United States for the last 24 hours totaled 1,100,000 bushels and that Europeans had purchased at the seaboard today 800,000 bushels additional. Moreover, assertions were current that fully 8,000,000 bushels of spring wheat had been sold to leave Duluth as soon as possible after the opening of the great lakes navigation season beginning at midnight tonight. On the other hand, the more interesting developments among the bushels today after announcements were made that sales of wheat to go to store here had taken place to the amount of 150,000 bushels. In this connection it was said that a number of Chicago houses in the cash and elevator trade had been able to buy considerable wheat in the country as a result of the bulge in prices and that foreign demand here was comparatively slow.

The result was to cool off to a noticeable degree anxiety on the part of shorts. Rallies, however, were prompt before the market at any time receded to last night's level. Corn was helped upward by wheat strength and by continued reports of crop damage in Argentina. Country offerings, though as was the case with wheat increased somewhat on the advance. Two steamers were announced to leave Chicago tonight with 700,000 bushels of corn for Buffalo. The first vessels of the season in the corn trade free buying of July and selling of May or houses that generally act for the seaboard caused a decided narrowing of the spread between the two deliveries. There was also a good deal of speculative buying of July.

**Chicago Livestock Market**  
Receipts 17,000.  
Market unsettled, advance of 5 to 10c partly lost.  
Bulk of sales ..... \$7.20 @ 7.40  
Light ..... 7.15 @ 7.40  
Heavy ..... 7.10 @ 7.55  
Mixed ..... 6.80 @ 7.40  
Rough ..... 6.80 @ 7.00  
Pigs ..... 6.00 @ 7.00  
CATTLE.  
Receipts 3,000.  
Market strong.  
Native beef steers ..... \$6.10

## Brief News Close to Home

**Fire Destroys School House.**—The  
Belmont county school, near Strong-  
hurst, was completely destroyed by  
fire. The pupils marched from the  
burning building in an orderly man-  
ner.

**Buys Summer Resort.**—Dr. L. D.  
Rogers of Chicago Wednesday  
bought Resthaven, the great sum-  
mer resort sanitarium hotel at  
Waukegan, for \$55,000. The house  
silverware alone is rated at \$50,-  
000. He plans to make Resthaven  
a summer resort for invalids.

**Granite City Man Bankrupt.**—  
Henry S. Mettlin and Ellis P. Met-  
tlin, merchants of Granite City, have  
filed voluntary petitions in  
bankruptcy. In the federal court,  
their liabilities are scheduled at  
\$2,334.33 and their assets at \$1,  
316.58.

**Must Reconstruct Sewers.**—The  
rivers and lakes commission of Illi-  
nois after a hearing Wednesday con-  
firmed an order made on February  
19, that Galesburg must reconstruct  
its sewerage system and cover open  
sewers to prevent contaminating  
Cedar Fork river.

**Money for Church.**—The board of  
trustees of the Illinois annual con-  
ference of the Methodist Episcopal  
church has just received for the su-  
perannuates' fund \$6,288 from the  
estate of the late Parthena Kep-  
linger of Carlinville, Ill., according  
to a letter received by Secretary  
Joseph B. Hingeley at Chicago from  
Dr. B. B. Shig, district superintendent  
and secretary of the Illinois con-  
ference board of trustees.

**Disposes of Big Estate.**—Mrs. Har-  
riet Haines' will disposing of a  
\$500,000 estate has been filed in St.  
Charles. The income from the es-  
tate for twenty years is given to  
the school district of St. Charles. At  
the end of twenty years the estate  
is to be converted into cash and the  
proceeds given to the school district.  
Nephews and nieces are cut off by  
the will.

**Hair Caught in Cog Wheels.**—  
While working about a new pop-  
corn machine at Charleston, Mrs.  
Neva Miskimin was so unfortunate  
as to get her hair caught in the  
cog wheels and her head was drawn  
into the cogs before employees,  
warned by her screams, rushed to  
her assistance and shut off the  
electric power.

**Under Ground 74 Years.**—A car-  
eer of seventy-four years' work un-  
derground as a miner, which he be-  
gan when he was eight years old  
and continued until immediately be-  
fore he died, at the age of 82 years,  
was brought to a close by the death  
Wednesday morning of Charles  
Hammond of Springfield. He was  
ill only a short time.

**Big Estate to Son.**—To Isaac Guy-  
man, a prominent resident of Cal-  
lin township, near Danville, and well  
to do in his own right, property to  
the amount of nearly one-fifth of a  
million falls into his hands through  
the death early in the week of his  
mother, Mrs. Mary Jane Hoyle. The  
will of the aged woman, who passed  
away at St. Elizabeth hospital, was  
filed and immediately admitted to  
probate. It leaves all of her prop-  
erty to Mr. Guyman, who is the sur-  
viving child by the first husband of  
Mrs. Hoyle.

**Post Master Asked to Resign.**—  
Postmaster W. E. Ludlow of Griggs-  
ville was considerably surprised in  
opening his mail to find a request  
from the First Assistant Postmaster  
General to resign his office. The re-  
quest in itself was not so surprising,  
as since the change in administra-  
tion, Mr. Ludlow didn't expect to  
continue in office after the expira-  
tion of the term of his appointment,  
which would be August 21, this year.  
What surprised him was the short  
time given him to submit his resig-  
nation.

**20 Farmers to Answer.**—Infor-  
mation will be filed with the federal  
grand jury in a few days against  
20 farmers of northern Illinois  
who are alleged to have resisted at-  
tempts of government officials to  
enforce the quarantine against the  
hoof and mouth disease. Charles  
F. Clyne, United States district at-  
torney, would give out no informa-  
tion but did not deny action would  
be taken.

**Young Couple Elopes.**—Fearing  
that their parents would put an end  
to their venture, two couples from  
Fithian, eloping to Kankakee to be  
married there, boarded a box car at  
the Illinois Central roundhouse  
north of Champaign, and happily  
went their way. The young couple  
had come to Champaign with gloom-  
y thoughts of being stopped by  
angry sires if they should attempt  
to travel to Kankakee on an Illinois  
Central passenger train.

**School Election Spirited.**—In the  
most hotly contested school election  
ever held at Duquoin C. O. Well-  
ington, Charles Weinberg, Sr. and Ed-  
ley E. Thornton were elected mem-  
bers of the board of education by a  
majority of 225. Over 1,100 votes  
were cast, many women taking part.  
The new board opposes the present  
school system and will abolish the  
position of superintendent. Charles  
W. Houk, formerly of Crown Point,  
Ind., now is in charge of the schools  
there.

**Fire at Farmington.**—Fire believ-  
ed to be of incendiary origin, early  
Wednesday destroyed the two  
stores, grocery and meat market,

owned by Rossi & Vedas at Farm-  
ington. The loss is covered by in-  
surance.

The stores were joined together  
by an arch, both heated with the  
same heating system, a furnace.  
There was no fire in the furnace  
yesterday and it is believed the  
blaze was caused by firebugs.

**Brant Goes to N. Dakota.**—H. H.  
Brant and family who were reported  
in the Record returning last Satur-  
day night from North Dakota, will  
go back there next week to make  
their future home, Mr. Brant having  
sold his residence including five lots  
in the southwest part of Roodhouse  
to engineer James F. Donnelly of  
Jacksonville for \$1,800 says the  
Roodhouse Record. Mr. Donnelly  
bought the property as an invest-  
ment. Mr. Brant and family will  
locate on a 160 acre farm near  
McCluskey, North Dakota, owned by  
Mrs. Brant's uncle, a bachelor, who  
lives on the place which is well im-  
proved. Brant is at present night  
towerman at the "Q" crossing.

**Made Her Delicate Boy Strong.**  
New York City.—"My little boy  
was in a very weak, delicate condi-  
tion as a result of gastritis and the  
measles and there seemed no hope  
of saving his life. The doctor pre-  
scribed cod liver oil but he could  
not take it. I decided to try Vinol—  
and with splendid results. It seem-  
ed to agree with him so that now  
he is a strong healthy boy."—Mrs.  
Thomas Fitzgerald, 1030 Park Ave.,  
N. Y. City.

We guarantee Vinol, our delicious  
cod liver and iron tonic, for run-  
down conditions, chronic coughs,  
colds and bronchitis. Lee P. Al-  
cott, Druggist, Jacksonville, Ill., and  
leading drug stores everywhere.—  
Advertisement.

**Five Daily Calls to Prayer.**  
At sunrise the light sleepers are  
awakened by the long, mellow cry of  
the muezzin from his tower:

God is great!  
I testify that there is no God but God!  
I testify that Mohammed is the prophet  
of God!

Come to prayer!  
Come to salvation!  
Prayer is better than sleep!  
God is most great!

There is no God but God!

As one hears five times each day  
from the minarets of the mosques of  
Cairo this summons to prayer, as one  
beholds the faithful reverently bowing  
their bodies in their shops or in the  
public highways, one readily perceives  
that in Cairo he is near the heart of  
the Moslem world. These prayers oc-  
cur at sunrise, midday, 3:30 in the af-  
ternoon, at sunset and an hour and a  
half after sunset. The faithful must  
attend their prayers with bows and  
prostrations to show perfect devotion.  
—Clayton Cooper's "The Man of  
Egypt"

**Molasses For Shoes.**

Shipping Louisiana molasses into  
New England by the hoghead and  
sending the same hoghead back south  
again with shoes were incidents of the  
shoe trade of Avon years ago. It was  
back in 1840, when the present town  
of Avon was East Stoughton, that two  
brothers were in company manufac-  
turing shoes and as a side line ran a  
grocery and general store in a spot  
where now stands the postoffice build-  
ing. One of the brothers went south  
and located in New Orleans in the  
grocery business, leaving his brother  
here to manufacture shoes and boots,  
according to E. Dexter Littlefield. The  
brother who was in the South would  
ship a hoghead of molasses to his  
brother in Avon and as soon as the  
hoghead was empty it would be clean-  
ed and would be filled with boots for  
the southern trade. This practice was  
kept up for years, and in this way a  
good trade was built up for Avon foot  
wear.—Boston Globe.

**Saved by Artificial Breathing.**

Dr. S. F. Derlojinsky, a Russian  
surgeon, reports the case of a peasant  
of twenty-one who, following an angina  
of probably diphtheritic origin, was  
stricken with paralysis. After two  
weeks of total paralysis some move-  
ments of the arms appeared, but a  
few days later respiratory trouble be-  
gan. The breathing rose to forty to  
the minute and became superficial  
with momentary stops. It was neces-  
sary to resort to artificial respiration.  
With the assistance of pupils in the  
firmly school this was kept up day  
and night from Feb. 5 to Feb. 20. On  
the latter day the patient began breath-  
ing naturally, but difficulty in swallow-  
ing arose about the same time. On  
Feb. 26 it became necessary to begin  
artificial respiration again. This was  
maintained until March 1, when nat-  
ural breathing returned, and the pa-  
tient recovered.

**Thackeray's Criticism.**

In "Bar, Bat and Bit," by the Hon.  
Sir Edward Chandos Leigh, is the fol-  
lowing Thackeray story:

Thackeray and others were great fre-  
quenters of Evans', in Covent Garden,  
kept by Paddy Green, where the most  
beautiful gloves used to be sung. There  
was a little coterie there, and I was  
honored by being allowed to join that  
coterie. We used to devour chops,  
baked potatoes and other adjuncts to a  
homely supper after the theater. One  
night I found Thackeray alone at the  
table when up came a small, obse-  
quious gentleman who rubbed his  
hands together and addressed Thack-  
eray with the most fulsome compli-  
ments. When he passed on I said to  
Thackeray, "Pray tell me who is that?"  
His answer was, "He calls himself an  
artist, but he paints as much in water  
as he does in oil."

FOR COMMISSIONER  
**GEORGE P. DAVIS**

# Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections  
of this great country, no city so large, no village so small  
but that some woman has written words of thanks for  
health restored by Lydia E. Pinkham's Vegetable Com-  
pound. No woman who is suffering from the ills peculiar  
to her sex should rest until she has given this famous remedy  
a trial. Is it not reasonable to believe that what it did for  
these women it will do for any sick woman?

**Wonderful Case of Mrs. Crusen,  
of Bushnell, Ill.**

BUSHNELL, ILL.—"I think all the trouble I have had since my  
marriage was caused by exposure when a young girl. My work has  
been housework of all kinds, and I have done milking in the cold  
snow when I was too young to realize that it would hurt me. I have  
suffered very much with bearing down pains in my back and such  
miserable pains across me, and was very nervous and generally run  
down in health, but since I have taken Lydia E. Pinkham's Vegetable  
Compound my back never hurts me, my nerves are stronger, and I  
am gaining in health every day. I thank you for the great help I  
have received from your medicine, and if my letter will benefit suf-  
fering women I will be glad for you to print it."—MRS. JAMES CRUSEN,  
Bushnell, Illinois.

**A Grateful Atlantic Coast Woman.**

HOPKINSON, ME.—"I feel it a duty I owe to all suffering women to  
tell what Lydia E. Pinkham's Vegetable Compound did for me. One  
year ago I found myself a terrible sufferer. I had pains in both sides  
and such a soreness I could scarcely straighten up at times. My  
back ached, I had no appetite and was so nervous I could not sleep,  
then I would be so tired mornings that I could scarcely get around.  
It seemed almost impossible to move or do a bit of work and I  
thought I never would be any better until I submitted to an opera-  
tion. I commenced taking Lydia E. Pinkham's Vegetable Compound  
and soon felt like a new woman. I had no pains, slept well, had good  
appetite and was fat and could do almost all my own work for a fam-  
ily of four. I shall always feel that I owe my good health to your  
medicine."—MRS. HAYWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable  
Compound has been the standard remedy for fe-  
male ills. No one sick with woman's ailments  
does justice to herself if she does not try this fa-  
mous medicine made from roots and herbs, it  
has restored so many suffering women to health.  
Write to LYDIA E. PINKHAM MEDICINE CO.,  
(CONFIDENTIAL) LYNN, MASS., for advice.  
Your letter will be opened, read and answered by  
a woman and held in strict confidence.

**THIS IS THE LARGEST BANK IN MORGAN COUNTY.**

It is the only bank in Jacksonville in which the government deposits. We try to please. We give the same attention to small accounts that we do to large ones.

If you are not already a customer you are invited to become one. Ask any of our customers how they like the way we care for their business. We are willing to leave it to them.

**Social Activities****Observed First****Wedding Anniversary.**

Miss May Sargent entertained at a 6 o'clock dinner Thursday evening at the home of her grandmother, Mrs. Belinda Sargent, northwest of the city, in honor of her sister and husband, Mr. and Mrs. S. Philip Cleary, who reside at The Maples, the occasion being their first wedding anniversary. The house was decorated in the colors pink and white by the use of carnations, roses and other flowers. The dinner was greatly enjoyed followed by a social time. The hostess was assisted by Miss May Paschall and Ethel Thomason and Mrs. John Tobin. Miss May Sargent gave a number of vocal and instrumental solos much to the delight of the company. Among the guests present were Mr. Cleary's mother, Mrs. Mary L. Cleary of Chicago, Mr. and Mrs. John W. Cleary, Mr. and Mrs. Michael E. Cleary, Jeffrey Cleary, Miss Myrtle Paschall and the Sargent family. The occasion being the cotton anniversary of the young people, they received not only a number of pretty presents appropriate to the occasion, but gifts that would be most acceptable to those whose wedding anniversary would number a great many more years.

**New Berlin Couple  
Have Silver Jubilee.**

Friends and relatives of Mr. and Mrs. Theodore Freitag of New Berlin gathered Thursday evening at the Freitag home for a six o'clock dinner and social evening in celebration of the twenty-fifth wedding anniversary of their host and hostess, Mrs. Snyder, a sister of Mrs. Freitag was guest of honor, having served as bridesmaid twenty-five years ago when Theodore Freitag and Miss Gertrude Stelle were married at St. Mary's church, New Berlin, with Rev. Father Mohr officiating.

Red and white carnations were used in the house decorations and wedding bells were employed in the dining room. On the wedding cake was graven the number "25" in commemoration of the silver anniversary and all appointments were made with reference to the great event. Mr. and Mrs. George Wolke were present from Jacksonville and there were several Springfield guests. From Alexander there were present Michael Weigand and family, Mr. and Mrs. Frank J. Kaiser and Mr. and Mrs. J. T. Little.

Mr. and Mrs. Freitag are substantial citizens of the New Berlin community and friends in large number will join in wishing them an added twenty-five years of health and happiness. They have three children, Misses Agnes and Lulu and John Freitag, all at home.

**"Bachelors or Bust"  
New Club Organized.**

A number of young men organized a social club at the Y. M. C. A. Thursday night, which is to be known as the "Bachelors or Bust" club. It is the purpose of the young men to hold a meeting each Monday night at the "Y" and they expect to have a series of addresses by well known business men of the city.

The following were the officers elected:  
President—George Harney.  
Vice president—Albert Molohon.  
Secretary and treasurer—Glidden Reeve.

Chairman of entertainment committee—Lyle Wyant.  
Official advisor—Glen Johnson.

**Miss Sue F. Ellis'  
Eighty-fourth Birthday.**

Miss Sue Ellis celebrated her 84th birthday at the home of Mrs. Frank Irving on Grove street Thursday afternoon. From the hours of three till six many friends called at her home to extend congratulations, and partake of refreshments. She received tokens of esteem including many flowers. Wednesday afternoon, sixteen children, whose parents were former pupils of Miss Ellis, called at her home and gave a number of songs and recitations. Miss Ellis is among the oldest graduates of the Academy being a graduate with the class of 1852, there being twenty members of her class. She has ever taken a great interest in the Academy during its life and has been closely identified with educational interests of the city. After her graduation, for a great many years, she was a teacher in the public schools.

**Celebrated His  
Seventh Birthday.**

The seventh birthday of the son of Mr. and Mrs. Harry Cade was celebrated in Murrayville Thursday afternoon when a number of his little friends joined in the merriment of the occasion. The hours were passed in childish games and the decorations were pink and white. A birthday cake with seven candles was in the center of the table and Mrs. Cade was assisted in entertaining by Misses Gertrude Johnson and Melinda McCarty. Those present were Claud and Clyde Cook, Francis Carlson, Hugh Osborne, E. Blakeman, Maud and Ralph White, Norbert Tendick, Helen James, Helen Dial, Ruth Beadles, Alice Rimbe, Isabel Scott, Vivian Carlson and Ruth McCallum.

**"White Elephant Party"  
by Willing Workers.**

The "white elephant party" held Thursday afternoon in the basement of Alexander Methodist church was enjoyed by more than forty persons and the success of the afternoon spoke well for the efforts of the four hostesses, Mrs. Ernest Strawn, Mrs. George Snyder, Mrs. E. J. Edmonds and Mrs. Fred B. Six members of the Alexander Willing Workers. The refreshments were excellent and the matching game furnished much fun, but the climax in amusement came at the white elephant auction when the Rev. N. R. Johnson, pastor of the church, sold to the highest bidder some veritable "white elephant", securely wrapped, which each guest had brought on coming to the party. White bears were used by the bidders and the whole affair was conducted in a manner comically businesslike.

**Held Monthly Meeting.**

The Home Missionary Society of Grace M. E. church held their monthly business meeting with Miss Nettie Orear on South Main street, Mrs. Sarah Cocking led the meeting and Mrs. J. W. Lane read a paper on "The Indian." Refreshments were served. Tuesday the society is to give a luncheon at the church to raise money on their pledge.

**AGED CITIZEN OF WINCHESTER  
IS LAID TO REST THURSDAY**

Funeral of George Mader, Sr., is held at Christian Church, with many friends attending—Choral Concert in June and Other Notes.

Funeral services for George Mader, Sr., were held Thursday afternoon at the Christian church and burial was made in Winchester cemetery. The pastor, the Rev. E. G. Prewitt, spoke with praise and sympathy to the many friends assembled and the whole service bore strong tribute to a well spent life of eighty-five years.

Music was furnished by a quartet, with Mrs. W. H. Kinison, Miss Martha Higgins, E. J. Markille and Mr. Hieronymus singing the old-time songs of spirituality and comfort. The flower girls were Miss Vivian Brengle, Miss Ruth Priest, Miss Ruby Smith and Miss Leah Cowper and these cared for the abundance of floral offerings most tenderly. The bearers appointed were Chris Munze, William Cowper, Geo. Smith, Charles Sibert, William Coultas and D. D. Watt.

Among those from away to attend the funeral were Mr. and Mrs. W. S. Ehnie of Jacksonville, Mr. and Mrs. William Callans, Astoria, Mr. and Mrs. O. H. Lindemann, Jacksonville, Christopher Mader and two sons, Waverly, and Alonzo Ellis, White Hall.

**The Choral Concert.**  
Members of the Choral society have fixed upon June 10, Thursday, as the date of the summer concert and practice for the event is already in progress. The society members have under consideration several new features for this occasion and the concert in June gives excellent promise of being the musical event of the summer season.

**Personal Notes.**  
James Dugan has returned to his home in Beardstown after a visit of several days with relatives. Mrs. Chester Coultas and children left Wednesday for Iowa to join Mr. Coultas and to make their home

**New Silk Skirts.****New Cloth Coats****DISTINCTIVE APPAREL for WOMEN**

## New Sandal Effects

Strap effects are unusually good this season, always a satisfactory style, they bid fair to be more popular this season. We have styles with one, two, three and four bars. Some have beautiful side ornaments that are entirely new. Every woman likes strap sandals—there is so much beauty and daintiness about them. They have that snug fit and shape retaining qualities so important in low shoe fitting.

Let us show you the new style effects they will please you.

WOMAN'S BAPTIST MISSIONARY  
SOCIETIES HOLD DAY'S SESSION

Organizations of Morgan and Scott Counties Meet at Litterberry—Address by Rev. Percy W. Stephens.

The Woman's Baptist Missionary societies of the Morgan-Scott counties Baptist association held their semi-annual meeting Thursday afternoon in the Baptist church at Litterberry.

Mrs. A. A. Curry, of Pisgah, the retiring president was in charge of the business session and the new election of officers follows:

President—Mrs. Joseph Jackson, Jacksonville.

First vice president—Mrs. Percy W. Stephens, Jacksonville.

Second vice president—Mrs. Walbaum, Ashland.

Sec. and Treas.—Mrs. J. Underbrink, Litterberry.

The program of the afternoon included a message from Rev. Percy W. Stephens on "The Climax of Missionary Endeavor." He showed God's dealing with his people and the glorification of God's son in the subjugation of the race to his will.

Miss Mabel Goltra sang very acceptably "Come Unto Me." Other musical numbers were given by Litterberry people. A chicken dinner was served by the Litterberry society and the whole day proved a profitable one. There was a good attendance from Jacksonville.

Genuine Buffalo Fish. Sargent's Market.

## FIRE THURSDAY FORENOON.

The Jacksonville fire department was called at 10 o'clock Thursday forenoon to 803 West College avenue, owned by Dr. J. C. Widenham and occupied by Mrs. N. B. Westover, where a small blaze had been discovered in the roof. Prompt work with the Babcock extinguisher subdued the flames before much damage was done.

## J. A. HUBBLE BUYS DODGE CAR

S. W. Babby yesterday sold to J. W. Hubble, a 35 horse power, 5 passenger Dodge touring car for early delivery.

## GAVE TALK ON LINCOLN.

Mrs. Mary T. Carriel gave a talk on "Lincoln" at the High school Thursday afternoon. It being just fifty years since he was assassinated. She told several stories of Lincoln that are not well known and her address was one of unusual interest and profit. The students sang "America" and Miss Day gave a reading from Walt Whitman.

## LICENSE TO WED.

Edward Burton, Jacksonville, Mrs. Letha Butler, Jacksonville.

## MORTUARY

## Switzer.

Jacksonville friends have received word of the death of T. D. Switzer, stepfather of Miss Zella Rountz of this city, who passed away at 2 o'clock Thursday morning at his home in Farina, Ill. Pneumonia was the cause of death. Funeral services will be held in Farina this afternoon.

## Sullivan.

Supt. C. P. Gillett of the State School for the Deaf received a telegram Thursday telling of the death of Mrs. Andrew J. Sullivan at her home in Baton Rouge, La., Wednesday evening at 9:10 o'clock. Her death was preceded by a long illness from the grip.

Her maiden name was Lizzie Ferguson and she had lived in Jacksonville for a great many years being a teacher at the State School for the Deaf. Five years ago she married Andrew J. Sullivan of Chicago and they were employed in the school for the Deaf at Baton Rouge. She was a woman of refinement, culture and ability and had many friends in Jacksonville and vicinity who will hear of her death with much sorrow.

It is understood that the remains will be brought to this city for burial, the time of the funeral to be announced later.

Genuine Buffalo Fish. Sargent's Market.

RECITE SPECIFIC CASES OF  
ABUSE TO FOREIGNERS IN MEXICO

International Committee Sends Affidavits Testifying to the Existence of Conditions of Anarchy.

Washington, April 15.—All the embassies and legations in Washington representing countries which have considerable interests in Mexico have received from the international committee of Mexico City, it was learned today, affidavits testifying to the existence of conditions of anarchy in Mexico and reciting specific cases of abuse of foreign residents.

Most of the affidavits are directed to the British, French and Spanish embassies. Examination at some of the embassies has disclosed the fact that in many cases the allegations have been confirmed by advices already received from Mexico City consequently the diplomats have deemed the affidavits worthy of immediate transmission to their home governments. In at least one case also copies of the papers, where allegations have been confirmed by the embassy's advices have been laid before the state department as a matter of information.

MISS IMA CARMEN BERRYMAN  
GIVES SENIOR VOICE RECITAL

Miss Ima Berryman, a pupil of Mrs. Florence Pierson Hartmann, gave her senior voice recital in Music Hall of the Woman's college Thursday afternoon before a large audience. Miss Berryman is no stranger in musical life of the community as she has been a student in this city for a number of years and has often been heard with much pleasure on former occasions.

Miss Berryman opened her program with an Italian selection "Come Raggio di Sol" and followed with groups of German, French and English songs. The selections were such as to give the singer ample opportunity to disclose her musical ability. Miss Berryman possesses a voice of unusual purity, richness and flexibility, and she sings with marked poise and excellent breath control. The songs were finely interpreted, showing true musical intelligence. The audience was in perfect sympathy with the singer and in sincere applause showed their keen appreciation of the entire program. No little credit is due Miss Deane Obermeyer, who in a charming manner lent valuable support by her artist accompaniments.

The program follows:  
Come Raggio di Sol . . . . . Caldara 1679-1716

Der Nussbaum . . . . . Schumann  
Mondnacht . . . . . Schumann  
Die Lorelei . . . . . Liszt  
Charmante Papillon . . . . . Camara  
Adieu notre petite table . . . . . Mascenet  
(From Opera Manon)  
Je ris de me voir . . . . . Gounod  
Jewel Song from Faust.

The Pine Tree . . . . . Mary Turner Satter  
If no one ever marries me . . . . . Liza Lehmann  
Serenade . . . . . Ethelbert Nevin  
Now Sleep the Crimson Petal . . . . . Roger Quilter  
Bobolink . . . . . J. W. Bischoff

OBREGON SAYS FIVE THOUSAND  
ENEMY DEAD WERE COUNTED  
Vera Cruz, Mex., April 15.—Five thousand of the enemy dead were counted during the movement northward from Celaya. Six thousand prisoners and forty field pieces were captured.

This is General Obregon's summary of the result of the fighting about Celaya, where he is reported today to have gained a decisive victory over the forces of General Villa. The ringing of church bells and the parading of soldiers and citizens conveyed the news of the reported Carranza victory to the public.

Henry Greenberger has moved from the Cherry Flats to 1659 South Main street.

DISTRICT ENCAMPMENT  
HAS ANNUAL MEETING

PROFITABLE SESSIONS THURSDAY IN I. O. O. F. TEMPLE.

Five Counties Represented in Fifth Annual Sessions of Sixteenth District—With Meeting Time Changed to Fall Next Gathering of Patriarchs Here in October.

Profitable sessions of Sixteenth District Encampment members were held Thursday afternoon and evening when Patriarchs from the counties of Morgan, Cass, Scott, Pike and Greene gathered in Odd Fellows' Temple, East State street, for the fifth annual meeting of the I. O. O. F., association. W. B. Horn of Springfield, grand senior warden, was present as a representative of the grand state officers and spoke in behalf of the grand lodge at the evening session.

At the business meeting it was decided to change the time of meeting from the spring months until autumn and the date for the next gathering was set for late October. At that time Sixteenth district Patriarchs will be guests of Ridgely Encampment No. 9, at Odd Fellows' hall West State street, Jacksonville. The degree staff from the Carlville Encampment is expected to be present, and will exemplify the work. It was the team from Carlville which put on the drill last year at the meeting of the Grand Encampment at Springfield.

Following are the official representatives of the encampments of the district:

Ridgely No. 9, Jacksonville—Carl H. Weber.  
Temple No. 19, Jacksonville—J. Clark Rothwell.

Winchester No. 65, Winchester—Henry Higgins.  
Mt. Vernon No. 7, Beardstown—Edward Brockhouse.

Social No. 11, White Hall—C. A. Evans.  
Dossia No. 166, Meredosia—W. T. Hedenberg.

Progress No. 80, Barry—George M. Moore.

At 7:30 o'clock, delegates and visitors joined with Patriarchs of Temple Encampment No. 19 in regular meeting. The degree staff of that encampment then administered the Patriarchal degree to a class and the Ridgely degree staff gave the work in the Golden Rule degree. Following the regular lodge work, the Patriarchs present enjoyed a fellowship gathering at which time refreshments were served. The reception committee from No. 9 consisted of T. M. Tomlinson, Frank J. Heintz, Stansfield Baldwin, Herman Weber, J. T. Osborne, E. E. Henderson, J. K. Long and C. E. Seymour. The Temple Encampment committee was composed of J. Clark Rothwell, F. T. Thies, T. S. Martin, George W. Siegfried, P. G. Stein, Thomas Harber, J. Marshall Miller and W. W. Gillham.

Those who received the two degrees were William L. Welday and Henry Taufener of Dossia, No. 166, Meredosia; R. N. Wood of Mt. Vernon No. 7, Beardstown; C. W. Kennett of Ridgely No. 9 and L. D. Melton, E. M. Dunlap and Frank Massey from Temple Encampment No. 19. The work was put on in excellent manner, speaking well for the ability and training of the membership of the two teams. Frank Muehlhausen was head of the committee which had in charge the serving of refreshments.

Norman Waltrip and Sam J. Baker, grand Patriarch and grand scribe were expected to be present but being detained unavoidably the historical lecture in the afternoon was given by Mr. Horn, the grand senior warden. The school of instruction and historical lecture were followed by a question box and discussion and this was followed by the business meeting at 5 o'clock.

Henry Higgins of Winchester was re-elected to the position of district president for the coming year and he addressed the patriarchs briefly at the close of the work. Carl H. Weber of this city will continue as secretary of the district. Jacksonville patriarchs are well pleased with this meeting of the Sixteenth district and preparations will be at once begun for the meeting here the latter part of October.

POLICE STATE MACHINIST HAS  
CONFESSED TO KILLING GIRL

LIMA, Ohio, April 15.—Dorance S. Riddle, a machinist, confessed tonight, according to the police, that he killed Susie Coleman, aged 16, whose body was found here today behind an abandoned boiler near the railroad yards.

Riddle was arrested soon after the finding of the body. According to his alleged confession, he crushed the girl's skull with the iron door of a fire box. The machinist formerly served in the United States army. He gave no motive for the killing.

Reserve seats today, Brown's Music Store, Jules Folk Concert.

MAN IS FOUND DEAD IN WASHROOM  
OF A BURLINGTON PASSENGER

ST. PAUL, April 15.—When a Burlington passenger train from Chicago arrived here late tonight a man believed by the coroner to be the Rev. P. S. Slocum of Lyons, Iowa, was found dead in one of the train's wash rooms.

He had been shot in the head and a revolver found on the floor, the coroner said, indicated suicide. A letter in his pocket apparently from his wife was addressed to Rev. Slocum and postmarked Lyons, Iowa.
